Note: All data and the brochure are subject to change at any time. However, specifications, standard equipment, options, fabrics, and colors are subject to change without notice. Some equipment and standard equipment may be available only when you purchase a vehicle. Audi will advise you of the optional equipment you can order. Please ask your dealer for advice concerning current availability of standard and optional equipment. Other changes and improvements are being made continuously. A vehicle’s actual price may differ from the price shown due to taxes, license fees, registration fees, dealer documentation and destination charges, increased depreciation, and other factors. For details, contact your Audi dealer. It is possible that not all vehicles shown are available in all markets. Please ask your Audi dealer for details on the New Vehicle Limited Warranty, twelve-year limited warranty against corrosion perforation, and Audi 24/7 Roadside Assistance. (Roadside assistance provided by Road America in the U.S. Certain conditions apply, see your dealer.) For details, it may vary by vehicle manufacturer. “Audi,” all model names, “FrontTrak,” “FSI,” “quattro,” “Sideguard,” “Singleframe” and the Singleframe grille design, “S line,” “S tronic,” “TFSI,” “Truth in Engineering” and the four rings logo are registered trademarks of AUDI AG. “AdBlue” is a registered trademark of the Verband der Automobilindustrie. “Alcantara” is a registered trademark of Alcantara S.p.A. The BLUETOOTH word mark and logos are owned by the Bluetooth SIG, Inc., and use of such marks by AUDI AG is under license. “BOSE” and “AudioPilot” are registered trademarks of the Bose Corporation. “iPod” is a registered trademark of Apple, Inc. “Sirius” and all related marks and logos are trademarks of Sirius XM Radio Inc. and its subsidiaries. SiriusXM Satellite Radio subscriptions sold separately or as a package after trial expires. Subscriptions are governed by SiriusXM Customer Agreement (see www.siriusxm.com) and are continuous until you call SiriusXM to cancel. Sirius U.S. Satellite Service available only to those 18 and older in the 48 contiguous U.S.A., D.C and Puerto Rico (with coverage limitations). “TDI” is a registered trademark of Volkswagen AG. All other trademarks are the property of their respective owners. Some European models shown.

Much more than good taste, upon reflection.

Your A3 definitely knows how to make a first impression. Just consider its strong, athletic lines and that unmistakable Audi Singleframe® grille. But to truly see it for what it is, one has to dig a little deeper. Do this, and what you’ll uncover is much more than what first captivates the eye. The trademark Audi quattro® all-wheel drive system is available to help maximize traction, while the available groundbreaking TDI® clean diesel engine helps give you unmatched fuel efficiency without compromising performance. You’ll also discover a wealth of available innovative technologies, like Audi MMI® Navigation plus® with traffic information, that helps keep you effortlessly connected to the world. So go ahead, take some time to reflect. We promise you’ll only want one even more.

1 30 city/42 highway/34 combined mpg (2012 A3 2.0 TDI® with Audi S tronic® dual-clutch transmission and FrontTrak® front-wheel drive); 21 city/30 highway/24 combined mpg (2012 A3 2.0 T with six-speed manual transmission and FrontTrak® front-wheel drive). EPA estimates. Your mileage will vary.

2 See Infotainment/Technology section of Specifications for important information regarding the Audi MMI® Navigation plus® system.

01 – TDI® Clean Diesel Technology

The available groundbreaking 2.0-liter TDI clean diesel engine delivers 140 hp and 236 lb-ft of torque, yet achieves an EPA-estimated 30 mpg city and 42 mpg highway.1 If there’s such a thing as having your cake and eating it too, this is it.

02 – Powerful yet Efficient 2.0 TFSI® Engine

Years ahead of the competition, the Audi 2.0-liter turbocharged intercooled DOHC engine combines variable valve timing, Audi TFSI direct injection and turbocharging for more power while returning up to 30 mpg on the highway.1 If your heart didn’t skip a beat at first sight, it surely will now.
Always use an appropriate restraint system to secure, tether and protect your pets when transporting them in a vehicle.

Try and refrain from yelling “echo.”

Its exterior may talk a big game, but inside is where it really speaks volumes. The luxurious interior is spacious enough to bring practically whatever your imagination can conjure up, while your four passengers will graciously thank you after experiencing the supple standard leather that graces every seat. In here, the possibilities seem exceptionally endless.

Space fit for a modern family, and their best friend. With room to comfortably fit five, the A3 ensures nobody has to be left out of the fun.

1. Always use an appropriate restraint system to secure, tether and protect your pets when transporting them in a vehicle.
A fearless exhibition of confidence.

Bold statements are always a gamble, but sometimes the reward far outweighs the risk. Consider that the A3 is strong and athletic from any angle. Or that its low, wide stance declares it eats curves for breakfast. Even its muscular fenders, short overhangs and distinctive lines demand a second take. Everything about its design was meant to stir the senses and leave others wanting more.
Luxury should always offer a new perspective.

Experience an interior that hits all the right notes. The vents, switches and center console offer a fresh and modern look, while the distinctive instrument panel features white-on-black gauges with red needles for quick and accurate readings. Add to that supple leather seating surfaces and quality inlay materials, and sophisticated, refined and purposeful are three words that truly go the distance here.

05 – Dual-zone Automatic Climate Control
Who says you have to compromise on your personal comfort? Dual-zone automatic climate control gives you and your front passenger the ability to independently maintain your perfect temperature.

06 – Flexmetallic Trim
Along with the ergonomic design of the door handles, flexmetallic trim graces the beltline to add to the overall bold and contemporary feel of the interior.

07 – Leather Seating Surfaces
Naturally, this being an Audi, all the seating surfaces are wrapped in leather and feature beautiful stitching to complement the artistic design.
In here, the possibilities shine brighter.

In the A3, it's all about what you can do, not what you can't. That's why it has an exceptionally versatile interior. Throw in an available Open Sky panoramic sunroof destined to make every day brighter. Now what do you have? An interior that is capable of turning your every whim into reality.

UVA/UVB Protection

Spacious Cargo Area

Just try to fill it up. With a 60/40 split-folding rear seat that allows for multiple configurations and a maximum cargo capacity of 39 cu ft, there's almost no limit to the cargo-carrying abilities.

Open Sky Panoramic Sunroof

Let it all in with the available Open Sky panoramic sunroof. It creates a refreshing and light-filled interior that further enhances the pleasing ambiance. And to keep you and the luxurious interior protected, the glass blocks UVA and UVB rays.

Image 09 - Open Sky Panoramic Sunroof

Image 08 - Spacious Cargo Area

Image 07 - UVA/UVB Protection
Every turn brings another chance for a surprise. But being mentally prepared isn’t the only thing that matters. Your vehicle’s ability to physically react with stunning precision and relentless grip also counts. So when the road throws you a curve, you can just smile and ask for more.

It takes a keen sense of the road to truly tame it. And no all-wheel drive system is more in tune with its surroundings than the available legendary Audi quattro® all-wheel drive. Thirty-plus years of proven technology has produced a system that helps provide solid traction and confidence in the most adverse conditions. Not to mention unequalled performance all other times.

10 – Sport Suspension

Inspiring confidence in every turn, you can count on the available sport MacPherson front strut suspension and multi-link rear suspension to provide a high level of lateral rigidity. So whether you’re dodging traffic in the city or taming an apex-filled mountain road, you can expect dynamic handling.

11 – Audi Servotronic® Steering

Imagine an intelligent steering system that adjusts its level of resistance based on your speed. One that allows for more precise control at higher speeds while decreasing resistance at lower speeds for easier maneuvering in tight situations. Servotronic steering does exactly that.

12 – Center Differential

During normal driving conditions the center differential transfers more power to the front wheels, but in extreme circumstances it can transfer all the torque to one of the two axles, helping to give you optimal traction in almost every situation.
Compressing the air flow to the engine allows more air into the cylinder and ultimately more power from each ignition, significantly improving the engine’s power-to-displacement ratio.

Audi FSI direct injection aids in cutting down on waste and increases power by delivering a precise amount of fuel directly into the combustion chamber, helping ensure a more complete combustion.

With higher compression ratios and cylinder pressure, the TFSI engine fully atomizes fuel and helps optimize boost response.

The combination of these advanced technologies allows Audi to use a smaller, more efficient engine that still achieves excellent power and performance results.

Combining variable valve timing, Audi TFSI® turbocharging and direct injection for more power —

4 valves per cylinder 21 city / 30 hwy mpg 1FSI® direct injection

Trick your irrational side.

Sometimes an engine is so refined it makes it look too easy. Case in point: the Audi 2.0-liter turbocharged engine. Producing effortless power and punchy torque may seem easy, but peel back the mechanical layers and you’ll find an array of technologically ingenious features that assist in making the seemingly impossible, possible.

1.3 – 2.0-liter Turbocharged Engine

Combining variable valve timing, Audi TFSI® turbocharging and direct injection for more power—

200 hp / 207 lb-ft torque4 valves per cylinder 21 city / 30 hwy mpg 1FSI® direct injection

Elevating the performance of your A3, the Audi valvelift system intelligently varies the lift and duration of the engine’s exhaust valves, helping deliver smooth power delivery, instantaneous throttle response and reduction in fuel consumption.

The combination of these advanced technologies allows Audi to use a smaller, more efficient engine that still achieves excellent power and performance results.

1.5 – Six-speed Manual Transmission

Get a deeper connection to the road. The available smooth-shifting six-speed manual transmission delivers precise control while transferring maximum engine output to the road.

A total shift in thinking.

Shifting in 0.2 seconds requires a completely new way of doing things. Utilizing two clutches, the Audi S tronic® transmission facilitates lightning-quick gear shifts and near-constant power by ensuring you are in the gear you select the instant you select it. With almost no loss of momentum, no loss of rpm and almost no lag between gears, S tronic delivers a thrilling experience.

1st gear 3.462 Ratio
2nd gear 2.15
3rd gear 1.464
4th gear 1.094
5th gear 1.079
6th gear 1.073

0 – 60 mph, 6.7 seconds*

1.094
1.079
1.073

0 – 60 mph, 6.7 seconds*
Be the one to say “Less filling!” and mean it.

In the realm of high efficiency, all fuels are not created equal—or engines, for that matter. Consider the Audi TDI® clean diesel engine, which achieves better fuel economy than a comparable gasoline engine1 while producing fewer CO2 emissions. And when you add in the thrilling off-the-line acceleration that its 140 hp and 236 lb-ft of torque provide, you’ll have an even better reason to yell out loud.2

Featuring significantly higher compression ratios and increased cylinder pressure, fuel is more fully atomized. The advantage is optimized turbocharger boost and fuel efficiency.1 Combining the high compression ratio with direct injection allows for more thorough combustion, helping to ensure a highly efficient process and low emissions.

The high-pressure direct injection is an important part of the Audi TDI clean diesel engine’s remarkable horsepower and torque. By mixing the precise amount of fuel and air in the chamber, maximum combustion and maximum power are achieved. Diesel Has a Bigger Bang per Gallon

Packing more energy content than gasoline, diesel reigns as the king of efficiency. And taking advantage of this superior medium is the TDI clean diesel engine. Its advanced design is specifically engineered to harvest every last ounce of energy from diesel fuel.

Combining the high compression ratio with direct injection allows for more thorough combustion and lower emissions. Illustrations do not reflect actual operations and are for explanatory purposes only.

1. Diesel Has a Bigger Bang per Gallon
2. Piezo Injectors
3. Engineered for More Torque

1. 20 city/30 highway/24 combined mpg (2012 A3 2.0 TDI® with Audi S tronic® dual-clutch transmission and FrontTrak® front-wheel drive); 21 city/30 highway/24 combined mpg (2012 A3 2.0T with six-speed manual transmission and FrontTrak® front-wheel drive). EPA estimates. Your mileage will vary.
2. Always obey local speed and traffic laws.
Of course it’s a smart connection.

You should expect nothing less from Audi. And after experiencing all the ways we keep you connected, your expectations will be even greater. With available features like the advanced Audi music interface that provides intelligent integration with your iPod®, Audi MMI® Navigation plus with traffic information and seamlessly integrated BLUETOOTH® technology, you’ll quickly realize we are all about keeping you infinitely connected to your world.1

1. See infotainment/technology section of specifications for important information regarding the Audi MMI® Navigation plus system.

2. See back cover for important information regarding required SiriusXM subscriptions.

19 – BLUETOOTH®

Take your connection one step further with the fully integrated available BLUETOOTH® hands-free phone system. You’ll be communicate wirelessly with BLUETOOTH®-equipped phone, listening to the audio information, exploring your favorite music and saving your favorite songs.

20 – Audi Navigation Plus

The open road is an invitation for the available sophisticated system. Count on audible route guidance to give you the best possible path to your destination. Traffic updates help you to skirt gridlock and save time. And with a choice of a six-CD changer or a fully integrated iPod® connection, time in your car will always be time well spent.1

21 – BOSE® Sound System

Satisfying sound requires a premium delivery system. And no company is more synonymous with high-quality sound than BOSE®. Tailored to work with the interior space of the A3, the available BOSE® sound system lets you experience music the way it was intended.

22 – Audi Music Interface

If there is such a thing as being in complete control, this is it. The available Audi music interface integrates your iPod® seamlessly into the audio system, giving you full access to your iPod® through the audio system and steering-wheel-mounted controls.

23 – SiriusXM Satellite Radio

With almost unlimited entertainment, SiriusXM Satellite Radio is always close by. Enjoy the latest news, music, sports, talk and more. There’s always something on to match your every mood.

24 – BLUETOOTH®

Take your connection one step further with the fully integrated available BLUETOOTH® hands-free phone system. You’ll be communicate wirelessly with BLUETOOTH®-equipped phone, listening to the audio information, exploring your favorite music and saving your favorite songs.
We’ll own up to being control freaks.

Some might see that as a problem, but to us it’s just another way of saying we care. You see, we kind of have a thing for safety. Namely, yours. That’s why we go out of our way to help you avoid a collision—and why we developed such a wide array of innovative driver-control technologies. And if the unthinkable does happen, you can rest easier knowing we’ve put in a solid and comprehensive last line of defense.

24 – Electronic Stability Control

By continuously adjusting a number of drivetrain variables, including ABS, the traction control of ASR, and the electronic brake force distribution of EBD, Electronic Stability Control helps ensure your A3 will maintain its intended path.

25 – Crumple Zones

By deforming upon impact, crumple zones at the front and rear help to dissipate the energy and force of an impact, giving you and your passengers a tremendous level of protection.

26 – Rigid Safety Cell

Using high-strength steel in and around the occupant cell helps safeguard the integrity of the passenger compartment, even during severe impacts.

27 – Six Standard Airbags

Helping provide an additional level of protection are six standard second-generation airbags. These include front-impact airbags for the driver and front passenger, designed to aid in protection of the head; seat-mounted thorax side airbags, engineered specifically to help protect the thorax; and Sideguard® head curtain airbags developed to offer front and rear outboard occupants some head protection in the event of a side collision or rollover. And for added protection, rear-passenger thorax side airbags are available, for a possible airbag total of eight.

This is a dramatization and does not depict what will happen in a collision. All bags will not inflate in real-world collisions and, if multiple bags do deploy, they will be in various stages of inflating/deflating and will never all be inflated at the same time.

Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

Electronic Stability Control

By continuously adjusting a number of drivetrain variables, including ABS, the traction control of ASR, and the electronic brake force distribution of EBD, Electronic Stability Control helps ensure your A3 will maintain its intended path.

Crumple Zones

By deforming upon impact, crumple zones at the front and rear help to dissipate the energy and force of an impact, giving you and your passengers a tremendous level of protection.

Six Standard Airbags

Helping provide an additional level of protection are six standard second-generation airbags. These include front-impact airbags for the driver and front passenger, designed to aid in protection of the head; seat-mounted thorax side airbags, engineered specifically to help protect the thorax; and Sideguard® head curtain airbags developed to offer front and rear outboard occupants some head protection in the event of a side collision or rollover. And for added protection, rear-passenger thorax side airbags are available, for a possible airbag total of eight.
Imagine a cherry on top of your sundae. Sweet, right? Now imagine a cherry that helps protect your A3 in the garage. Or carries your bikes for a serious weekend on the trails. Or makes heads swivel as you drive by. Audi Genuine Accessories are the little extras that make your Audi even sweeter. Designed by the same visionaries who designed your vehicle, all accessories feature a tailored fit and the expert craftsmanship you’d expect from Audi. They are also backed by the 4-year/50,000-mile Audi New Vehicle Limited Warranty or the accessory’s 12-month/12,000-mile limited warranty, whichever extends longer from the accessory purchase date.

18” Calera Alloy Wheel and Tire Package
These alloy wheels grab attention with their distinctive dual-spoke design, and come equipped with all-season tires.

18” Castell Alloy Wheels
These wheels make a strong statement with an eye-catching two-piece design.

All-weather Cargo Mat
Custom fit for your A3. Textured material helps control load shifting. All-weather rear cargo area carpeting from stains.

Load Protection Film
This custom-fit transparent film helps protect the rear bumper from scratches while loading and unloading.

All-weather Floor Mats
Deep ribbed, channeled design helps protect the floor and carpeting from water, mud, sand and snow. All-weather floor mats feature vehicle logo. Set of four mats.

Base Carrier Bars
Attached to strong side brackets, these are the durable foundation of the Audi roof-rack system. (All roof-rack system attachments require the base carrier bars. All attachments sold separately.)

Audi Rings Valve Stem Caps
These handsome covers are made of polished stainless steel with a composite center cap. The cap is emblazoned with the iconic Audi rings.

Cargo Partition
This practical partition separates the passenger compartment from the luggage area. Great for pets and carrying large loads.

Fork-mount Bike Rack
This secure mount makes transporting your bike an easy task. Lock included. (Base Carrier Bars sold separately.)

Audi Guard car care products provide gentle cleansing formulas and special tools to help give interior and exterior surfaces the finest in cleaning and protection.

Car Care
Use the only car care line specifically designed with your Audi in mind. Audi Guard car care products provide gentle cleaning formulas and special tools to help keep your Audi in pristine condition. Use them to help protect your paint and finish on your Audi and keep it looking like new inside and out.

Various Comfort and Protection Solutions
Audi Genuine Accessories offer a wealth of practical aids for more space, tidiness and safety on board with functional items to help keep your Audi in pristine condition. Use them to help protect your paint and finish on your Audi and keep it looking like new inside and out.

Various Transport Solutions
The open road is calling—so bring all the right gear to enjoy the ride. The Audi line of storage accessories helps protect your possessions with a variety of intelligent and innovative solutions. Choose from bike racks, ski racks and a variety of cargo carriers.

Various Electronic Accessories
The many electronic accessories in your Audi are renowned for design that emphasizes user experience. All products are tested to help ensure compatibility with your vehicle’s electrical systems so that you can easily enjoy what Audi technology has to offer.

Various Exterior Accessories
The assortment of exterior accessories in your Audi are reviewed for design that emphasizes user experience. All products are tested to help ensure compatibility with your vehicle’s electrical systems so that you can easily enjoy what Audi technology has to offer.

**Tires**

- High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should not use high-performance tires, which offer better traction in those conditions. We suggest using all-weather tires in all climates. High-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices.

**Audi Sport Package**

1. Tire sizes and specifications may vary by model. Please refer to the model-specific section for tire and wheel size information.

---

**Audi Quattro®**

The Audi Quattro® all-wheel drive system is a permanent quattro® system. It delivers torque to all four wheels at all times, with no slippage or loss of traction. The system is designed to react faster than a traditional all-wheel drive system, ensuring maximum traction and stability, even in the most challenging conditions.

---

**2.0T Sportback**

The 2.0T Sportback is a compact, fuel-efficient, and sporty alternative to the sedan. It offers a sportier driving experience with a lower center of gravity and a more agile suspension. The 2.0T Sportback is ideal for those who want a sporty, fun-to-drive vehicle that is also economical on fuel.
Specifications

Chassis
- Fully galvanized steel unibody with rustproof anti-corrosion protection
- MacPherson strut front suspension with stabilizer bar
- Front hub rear suspension with stabilizer bar
- Sport suspension calibration
- Audi Sport Advanced Drive System
- Four-link rear suspension with stabilizer bar
- Sport suspension calibration
- Audi quattro® all-wheel drive system utilizing center differential
- FrontTrak® front-wheel drive
- Six-speed manual transmission (not available with Audi quattro®)
- Six-speed Audi S tronic® dual-clutch transmission

Safety & Security
- Driver and front passenger dual-stage airbags, thorax side airbags and Sideguard® head curtain airbags
- Rear-passenger thorax side airbags1
- Front passenger occupant detection—for airbags
- Safety belt reminder for driver and front passenger
- Lower Anchors and Tethers for CHildren (LATCH) in rear seats
- Power central locking system
- Electronic Stability Control (ESC) with traction control (ASR)
- Anti-lock Brake System (ABS) with Electronic Brake-pressure Distribution (EBD) and brake assist
- Front ventilated disc brakes
- Rear disc brakes
- Hill hold assist

Infotainment & Technology
- Audi Navigation plus with traffic information2
- Driver information system
- Audi concert radio with ten speakers and single CD player with MP3 playback capability
- Audi Navigation plus with ten speakers and audio interface
- Satellite Radio with MP3 playback capability
- Dual CD changer (not available with Audi music interface)
- Bose® sound system with ten speakers and AudioPilot® noise compensation
- SiriusXM Satellite Radio with 90-day trial subscription3
- Audi music interface with iPod® integration (not available with six-disc CD changer)
- Six-disc CD changer (not available with Audi music interface)
- BLUETOOTH® wireless technology preparation for mobile phone
- Cruise control with coast, resume and accelerate features
- Parking system with rear sensors
- Rearview cameras for automatic parking assistance

1. Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. 2. Audi Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi Navigation plus route. Periodically, the mapping is updated, and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at an additional cost. Consult your dealer or call 1-800-FOR-AUDI for details. 3. See back cover for important information regarding required SiriusXM subscriptions.
Cold Weather Package:
- Power-adjustable heated side mirrors
- Heated windshield washer nozzles
- Heated front seats

BLUETOOTH® Value Package:
- BLUETOOTH® wireless technology preparation for mobile phone
- Four-spoke multifunction steering wheel
- Eight-way power front driver seat (includes four-way power lumbar adjustment)

Convenience Package:
- BOSE® sound system with ten speakers and AudioPilot® noise compensation
- Parking system with rear sensors
- Rain/light sensors for automatic windshield wipers and headlights
- Auto-dimming rearview mirror with compass

Audi Navigation Plus Package:
- Audi Navigation plus
- Six-disc CD changer or Audi music interface

18" Sport Package:
- 18" 5-segment-spoke design alloy wheels
- Summer performance tires
- Sport suspension calibration
- Sport front seats

Titanium Sport Package:
- 18" titanium 5-arm-rotor design alloy wheels
- Summer performance tires
- Sport suspension calibration
- Black-optic exterior appearance
- Front sport seats
- Piano Black interior trim
- Black cloth headliner

Individual Options:
- Aluminum roof rails
- Black roof rails
- Dark Brown Walnut Wood inlays
- Rear-passenger thorax side airbags
- Open Sky panoramic sunroof

Exterior
- Audi Singleframe® grille
- Halogen headlights
- Xenon plus headlights with LED daytime running light technology
- Retractable headlights
- Front fog lights
- Power-adjustable side mirrors
- Power-adjustable heated side mirrors
- LED turn indicator light technology integrated in the side mirrors
- Heated windshield washer nozzles
- Single exhaust pipe with chrome tip
- Single exhaust pipe with dual chrome tips
- Audi S line® exterior appearance
- Aluminum roof rails
- Black roof rails

Interior
- Dual-zone automatic climate control

- Heated front seats

Titanium Sport Package Highlights
- 18" titanium 5-arm-rotor design alloy wheels
- Summer performance tires
- Black-optic exterior appearance
- Piano Black interior trim
- Black cloth headliner

1. Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer improved traction in those conditions. High-performance tires may also require higher inflation pressures than all-season or winter tires, which must be checked regularly. Always refer to your vehicle owner’s manual for tire inflation pressure. When choosing tires, it is essential to consider the type of operation. High-performance tires may provide better handling, but also result in less comfort and more noise than other choices. Finally, tire sizes may vary from vehicle to vehicle.
