Note: A word about this brochure. Audi of America, Inc., believes the specifications in this brochure to be correct at the time of printing. Specification, special equipment, equipment and accessory availability, option prices, and colors, fabrics, and trim colors may change at any time without notice. Availability of special equipment and accessories is subject to change without notice. Please ask your dealer for advice concerning current availability of standard and optional equipment, and your dealer will verify that your vehicle will include the equipment you ordered. The vehicles shown in the brochure are equipped with optional equipment. See your dealer for complete details on the New Vehicle Limited Warranty, twelve-year limited warranty against corrosion perforation, and Audi 24/7 Roadside Assistance. (Roadside assistance coverage provided by Road America in the U.S. Certain conditions apply; see your dealer for details.) Tires are supplied by various manufacturers. “Audi,” all model names, “ASF,” “quattro,” “Singleframe” and the Singleframe grille design, “S line,” “S tronic,” “TFSI,” “Truth in Engineering,” and the four rings logo are trademarks or registered trademarks of AUDI AG. “Alcantara” is a registered trademark of Alcantara S.p.A. “BOSE” and “AudioPilot” are registered trademarks of the Bose Corporation. The BLUETOOTH word mark and logos are owned by the Bluetooth SIG, Inc., and use of any such marks by AUDI AG is under license. “HomeLink” is a registered trademark of Johnson Controls Technology Company. “iPod” is a registered trademark of Apple Inc. “Servotronic” is a registered trademark of the AM General Corporation. “SiriusXM” and all related marks and logos are trademarks of SiriusXM Radio Inc. and its subsidiaries. All other trademarks are the property of their respective owners. Some features may not be available at time of order.
We know how it is. The longer you gaze upon the Audi TT Coupe and Roadster the more likely you’ll end up wanting them both. That’s just par for the course. With their iconic design, they captivate an audience from first sight, but there’s more here to ponder than just irresistible good looks. Like the way your TT intimately connects you to the road or the way it makes your pulse race every time you carve your way up and down a mountain road? And when you consider the attention to detail and luxurious touches found throughout this vehicle, it all becomes even more enticing. Add to all of that a collection of available innovative technologies designed to keep you on top of your game, and you’ll quickly realize that what you want is more than met by what the TT delivers.

Perfect Proportions

With its ideal set of proportions, one third of its shape being above the beltline and two thirds below, the TT conveys balance and strength throughout its magnificent silhouette.

Not so much a double take as a double want.

1. O obey all speed and traffic laws.
Doesn’t ask for looks. Steals them.

Stir the senses. Go beyond ordinary and find soul. That’s what your Audi TT was born to do. And nothing is more electrifying than one look at the TT. Every line comes at you with purpose. The dramatic profile is unmistakable, and the Audi Singleframe® grille, air inlets and pronounced wheel arches work in concert to highlight the assertive design. And with distinctive LED daytime running light technology announcing your arrival, there will be no doubt about who is showing up.

02 – Xenon Plus Headlights with LED Daytime Running Light Technology

Look sharp, with standard xenon plus headlights complemented by 24 LED daytime running light technology announcing your arrival. No detail is left unseen, no sense left unfulfilled.

03 – Audi Singleframe Grille

Perhaps its most dramatic element, the signature Audi Singleframe grille makes the TT instantly recognizable. Its lines perfectly meld with the front fascia and combine for a thrilling effect.
2013 Audi TT Coupe Prestige shown in Black Fine Nappa leather and optional Audi magnetic ride with Sport button program.

Further expressing its sports car DNA is a steering wheel designed for spirited driving.

Aluminum-trimmed pedals call attention to the vehicle’s performance while adding a little more style for your feet to appreciate.

Adding to the overall sophistication of the interior are aluminum trim accents and Brushed Aluminum decorative inlays.

Exudes character as well as control.

The first thing you’ll notice is an interior design that has few equals—or predecessors. As you look around, a unique expression of our design sensibilities for the TT will be apparent, but you’ll also see the unmistakable fit and finish that says nothing but “Audi.” A driver-oriented cockpit welcomes you as you enter. Luxurious leather/Alcantara® seating surfaces offer support in all the right places, brushed aluminum inlays give it a modern, clean feel, and a flat-bottom three-spoke multifunction sport steering wheel helps keep you in full command. This is luxury with more than enough character.
A compelling story, down to the last stitch.

Just as arresting as the exterior styling, the TT interior is sophisticated, and offers more than a dollop of sports car panache and luxury. Available high-touch Madras Brown Baseball Optic leather seating surfaces offer superior support, and elevate the cabin’s distinctiveness. The thick, woven stitching adorning the seat bolsters is visually arresting and pays tribute to an iconic American game. But the details are not limited to just the seating surfaces. A beautifully wrapped center console and sport steering wheel also boast premium leather treatments, and contrast stitching in the sport steering wheel adds a racetrack-inspired accent.

As if the interior of the TT doesn’t already make a powerful enough statement, available Baseball Optic leather seating surfaces add a decidedly unique interior treatment that will command attention, even among those oblivious to the sport.
Remove obstacles to your happiness.

Sometimes you want to think in terms of SPF as much as RPM. Top down, with the sun flooding the cabin, you find the easy charms of the Audi TT Roadster with the touch of a button. Better yet, you don’t have to worry about the RPMs, either, because the sports car heritage of the TT Roadster delivers them too. Take on the open road with joyful abandon. Because in here, you can always act on your impulses. Rain or shine.

2.0 Retractable Acoustic Soft Top

Designed with special noise-dampening properties, the TT Roadster offers a top constructed of canvas, lightweight aluminum, and steel. It opens and closes with a simple push of a button and can be operated at speeds under 31 mph.

In order to improve vehicle downforce, the adaptive rear spoiler deploys automatically at 75 mph and retracts at 50 mph.

1 Obey all speed and traffic laws.
It’s a bond between your car and the road.

It’s true that while the Audi quattro® all-wheel drive may have been engineered to help drive through inclement weather and in low-traction situations, the real magic of this advanced system is how it performs in the dry. Power is distributed to all four wheels working in concert to help grip every corner while giving you the optimal amount of power delivery where and when it’s needed. In other words, quattro® helps enhance performance by appropriately transferring power to the necessary wheels when accelerating and turning, so you have confidence-inspiring performance when the road isn’t at its best. Inclement weather aside, the really gripping story about quattro® is how it performs overall, forging a sure bond between you, your Audi TT and the road.

1. When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter-weather tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.

2. Take control of the handling characteristics with a push of a button. This optional system is filled with a special fluid that can change its viscosity instantly by introducing an electromagnetic charge, helping you get the right dampening forces for nearly every situation.

- Center differential
- Sport button program
- Magnetorheological fluid in non-magnetic state
- Magnetorheological fluid in magnetic state

Audi Magnetic Ride

Take control of the handling characteristics with a push of a button. The optional system is filled with a special fluid that can change its viscosity instantly by introducing an electromagnetic charge, helping you get the right dampening forces for nearly every situation.

Sport button program

Engage the optional Sport mode, and what you thought was the pinnacle of performance becomes even more impressive. The throttle becomes even more responsive, the steering characteristics become more direct, the suspension becomes more firm, and the sound emanating from the exhaust outlets even meatier.
Perfect equilibrium from zero to forever.

The concept behind one of the world’s most advanced transmissions is simple: provide near-constant power. This is accomplished by having two clutches, two input shafts and two independent gear clusters, giving you confidence that you’ll be in the gear you select the instant you select it. And that translates into big performance numbers.

Launch Control
Get off the line even quicker with the help of Audi launch control. Working in concert with the S tronic dual-clutch transmission, it optimizes launch rev speed and tire slip—page, so you can expect faster off-the-line acceleration.

Light, agile and powerful, the 2.0-liter TFSI® engine puts out 211 hp and combines Audi valvelift system, variable valve timing, TFSI direct injection and turbocharging to prove performance doesn’t have to exist at the expense of efficiency.

Using the energy from the spent exhaust to drive a compressor wheel, the turbocharger compresses the intake air and forces it into the cylinder. The result: increased power, torque and efficiency.

Just as in nature, the balance of power in your Audi TT is in constant flux. Good thing the engine and transmission find perfect harmony, adding up to an altogether exhilarating experience. The perfectly tuned TFSI® engine helps provide a flawless yin to the advanced Audi S tronic® dual-clutch transmission’s yang, achieving a remarkable level of performance, almost indefinitely.
In today's world of constant connectivity, you expect to be able to maintain it anywhere. That's why we integrated the available highly advanced Audi Navigation plus system. It not only helps find the best route to your destination, but also helps you skirt traffic and find a place to eat along the way. And when you need to make a call, you can count on the BLUETOOTH® mobile phone connectivity to make it happen with ease. Of course, you need to be entertained along the way, so we've included SiriusXM Satellite Radio to get you from coast to coast without skipping a beat.

In today’s world of constant connectivity, you expect to be able to maintain it anywhere. That’s why we integrated the available highly advanced Audi Navigation plus system. It not only helps find the best route to your destination, but also helps you skirt traffic and find a place to eat along the way. And when you need to make a call, you can count on the BLUETOOTH® mobile phone connectivity to make it happen with ease. Of course, you need to be entertained along the way, so we’ve included SiriusXM Satellite Radio to get you from coast to coast without skipping a beat.

1. See Infotainment/Technology section of the Featured Content page for important information regarding Audi Navigation plus and required SiriusXM subscriptions.
2. Requires compatible phone.
Your safety isn’t just another selling point.

It’s our highest priority. And to prove it, we went ahead and included some of the most advanced safety features available, starting with strategically placed crumple zones designed to absorb impact in the event of a collision. Then there are our sophisticated driver control systems that help you avoid trouble before it can start. And of course we provide a comprehensive airbag system to help protect you if the unthinkable becomes inevitable. All this, so you can enjoy your TT in total confidence.

20 – ASF® Aluminum Space Frame
Lightweight yet unyielding, revolutionary AFS technology offers an innovative approach to weight-savings—a benefit you will notice in the overall efficiency, enhanced performance and invincible handling of the Audi TT. These unique characteristics also help to absorb the normal bumps of the road, delivering a smoother ride.

21 – Crumple Zones
Strategically placed in the front and rear, these crumple zones are designed to compress and deform during a collision and help absorb impact energy as it passes through the frame.

23 – Six Standard Airbags
Helping protect you from almost all angles are six standard airbags, front-impact airbags for driver and passenger, driver and front-passenger knee airbags, and seat-mounted, side-impact head and thorax airbags.

24 – Rollover Protection System
Built into the TT Roadster are heavily reinforced rollover protection devices, designed to help protect you and your passenger in the unlikely event of a rollover. In addition to helping provide another level of safety, they also add to the overall visual muscle of the Roadster.

1 Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and children in the rear, using restraints appropriate for their size and age. 2 22 city/31 highway (2013 Audi TT 2.0 TFSI® with Audi S tronic® dual-clutch transmission and Audi quattro® all-wheel drive). EPA estimates. Your mileage will vary.

3 This is a dramatization and does not depict what will happen in a collision. All bags will not inflate in real-world collisions, and, if multiple bags do deploy, they will be in various stages of inflating/deflating and will never all be inflated at the same time.
2013 Audi TTS Roadster shown in Ibis White. 2013 Audi TTS Coupe shown in Misano Red pearl.

ENGINE // 2.0-liter turbocharged Audi TFSI® four-cylinder engine developing 265 hp and 258 lb-ft of torque

DRIVETRAIN // Audi quattro® all-wheel drive, six-speed Audi S tronic® dual-clutch transmission

CHASSIS // TTS tuned sport suspension, Audi magnetic ride

BRAKES // 13.4” ventilated front disc brakes with TTS logo, 12.2” ventilated rear disc brakes

PERFORMANCE // Top track speed of 155 mph, 0 acceleration 0–60 mph in 4.9 seconds (Coupe) and 5.1 seconds (Roadster).

Like putting an exclamation point on every sentence.

You didn't get a TTS in order to parade around quietly. So make sure you're heard, with a potent 265-horsepower 2.0-liter Audi TFSI® engine with S quad exhaust outlets, as well as seen, with the strong stance and dramatic curves that showcase a performance profile that backs down to no one. Add a bold S model Audi Singleframe® grille with aluminum optic double-blade crossbars, and a rapid-fire Audi S tronic® dual-clutch transmission with launch control to define its musculature. The final exclamation point comes when you make the run from 0 to 60 mph in a blistering 4.9 seconds. Just to rub it in.

1 Top track speed is electronically limited in the U.S. Obey all speed and traffic laws. 2 0–60-mph times will differ from model to model.

Audi Sport

There's more information on the Audi Sport model line in the all-new 2013 Audi Sport brochure. See your dealer or go to audiusa.com for details.

  - Audi S line® Competition package, Coupe only

*Tires are supplied and warranted by their manufacturer. High performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction and reduced tire wear. Please see the tire manufacturer for warranty details. We suggest you use the recommended winter or all-season tire specified for your car or its equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices.*

1. Audi Navigation plus depends on signals from the available Global Positioning Satellite network. The vehicle’s electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with targeted directions in traveling addresses, destinations and other points of interest. Changes in roads, names, or road systems, traffic, road closures, holidays, road-related or other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., cannot be provided due to limitations in current technology. Therefore, discrepancies between the mapping and your actual location may occur. Please rely on your individual judgment in determining whether or not to follow a suggested route. Periodically, updates will be available for purchase at an additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.

2. SiriusXM Satellite Radio subscriptions sold separately or as a package after trial expires. Subscriptions are governed by SiriusXM Customer Agreement (see www.siriusxm.com) and are continuous until you call SiriusXM to cancel. Sirius U.S. Satellite service available only to those 18 and older in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations).
Imagine a cherry on top of your sundae. Sweet, right? Now imagine a cherry that helps protect your 
TT in the garage. Or carries your bikes for a serious weekend on the trails. Or makes heads turn as you drive by. Audi Genuine Accessories are the little extras that make your Audi even sweeter. Designed by the same visionaries who designed your vehicle, all accessories feature a tailored fit and the expert craftsmanship you’d expect from Audi. They are also backed by the 4-year/50,000-mile Audi New Vehicle Limited Warranty, or the accessory’s 12-month/12,000-mile limited warranty, whichever extends longer from the accessory purchase date.

**Audi Genuine Accessories**

1. See dealer for details. 2. 300-cu-in fuel system attachments require the base carrier bars. All attachments sold separately. 3. Recreational equipment, sporting equipment and luggage not included.

---

### Accessories

#### Audi Genuine Sport and Design Accessories

Your Audi vehicle features a bold, aggressive stance with strong, sculptured accents. Enhanced by adding Audi Genuine Sport and Design Accessories. All are carefully scrutinized in the design and develop- 
ment process to polish your Audi to a distinctive, timeless style. Your Audi dealership can help you choose the right accessories to transform your vehicle into yours and yours alone. Nothing enhances the bold, dynamic look of your Audi vehicle faster.

- **Audi Genuine Alloy Wheels**
  - Strike the perfect balance between breathtaking design and awe-inspiring performance with Audi Genuine Alloy Wheels. Audi experts have meticulously designed these wheels especially for each Audi model, from purely functional to sleek and sporty. They're engineered to the highest standards and endure rigorous test- 
ings to help ensure long-term quality. Experience eye-catching style that's yours and yours alone. Choose from such wheels as the 19” Turbo Twist Wheels—White, available in black or silver. Also available—and more yours.
  - Rear Disc Brakes
  - Adds sporty functionality to the TT or TTS. Primed for painting, or available pre- 
painted for a perfect color match and added convenience. Consult your 
authorized Audi dealer for available colors. These sculptured accents provide the TT profile with a ground-effects 
flair. Not available for TTS and TTRS.

- **Audi Genuine Sport and Design Accessories**
  - Custom fit for the TT. Textured material helps protect body and carpeting from 
stains. (Coupé only.)
  - Raised lip helps contain spills and protect cargo-area carpeting from 
water, mud, sand and snow. Rubber mats come in black and 
white with silver piping. Set of two front mats.
