Total package.

You don’t always know where the day will take you. In a Honda HR-V Crossover, you don’t need to. With the best qualities of an SUV, a hatchback and a compact, the HR-V is stunningly versatile and ready to go wherever life demands. Never compromise on flexibility.

Versatility rules.

There’s always more than one way to get to where you’re going. And with the HR-V, there are multiple ways to pack the things you take along for the ride.

**Long Mode** (top)
You might think you’ll never need to transport something up to eight feet in length. Until you do. Fold down the front and rear passenger-side seats to go long in the HR-V.1

**Tall Mode** (center)
Some items travel better upright. So fold the Magic Seat® up and enjoy nearly four feet of space, from floor to ceiling.1

**Utility Mode** (bottom)
Maximize your cargo space with minimum effort. Fold down the 2nd-row Magic Seat and you’ll have plenty of room to fill up!1

Enhance your outlook.

Functionality, versatility and efficiency are all important in a vehicle – and the HR-V definitely has all of those things. But let’s not kid ourselves: Looks matter too. Fortunately, the HR-V overdelivers in that department. By a mile.

Interior Features

We spend a lot of time in our cars. With a full suite of available upscale interior features, like heated front seats, touch-screen climate control and a leather-wrapped steering wheel and shift knob, the HR-V makes that time well spent.

Automatic Climate Control with Electrostatic Touch-Screen
Stop fiddling with buttons and use the touch-screen interface to seamlessly manage cabin climate (EX, EX-L Navi).

Electric Parking Brake
An electric parking brake replaces the cumbersome hand lever with a simple, sleek switch.

HDMI® /USB Connections
There are multiple ways to plug into the HR-V. Connect via an HDMI cable, multiple USB Audio Interfaces® (EX, EX-L Navi) or a traditional MP3/Auxiliary input jack® (LX).

Bluetooth® HandsFreeLink®
Eyes on the road, hands on the wheel and you on your Bluetooth enabled mobile phone with standard Bluetooth HandsFreeLink®

Steering Wheel-Mounted Controls
Make a call, adjust the volume, or change the music. The controls you want are right in front of you.

Smart Entry
As long as your smart entry remote is with you, you won’t need to take it out to unlock the door (EX, EX-L Navi).

7-Inch Display Audio Touch-Screen
All it takes is a tap, pinch or swipe of the 7-inch Display Audio touch-screen to access a ton of features, including HondaLink® (EX, EX-L Navi).
Destination anywhere.
Life is not a straight line, so you want a vehicle that can handle all the curves. The HR-V combines dynamic design with an available EarthDreams® Technology continuously variable transmission (CVT) to deliver a superior driving experience, no matter where the road takes you.

Smart touches.

The HR-V is loaded with technology that’s as intuitive as it is innovative. And the clever design of the interior ensures that even the most advanced offerings are always well within reach.

Real Time AWD with Intelligent Control System™
Whether a street is completely dry or covered in snow, the HR-V helps you stay on it with the available Real Time AWD system that transfers power to the rear wheels when it senses the front wheels losing traction.

1.8-liter i-VTEC® 4-Cylinder Engine
The powertrain is all about strength in numbers, like 141 hp6 and 127 lb-ft torque.6 The same engine that produces those numbers also helped the HR-V receive an impressively efficient 34-mpg highway rating.*

Paddle Shifters
The HR-V makes driving more fun by putting the power to shift at your fingertips with sports car-inspired paddle shifters (EX with CVT, EX-L Navi).

Honda LaneWatch™
See more of your surroundings with a small mirror-mounted camera that displays passenger-side traffic in the Display Audio screen (EX, EX-L Navi).

Push Button Start
No need for a key in the HR-V. Bring the engine to life with the touch of a button (EX, EX-L Navi).

Driven to protect.

At Honda, safety never takes a back seat. The HR-V earned a 5-Star Overall Vehicle Score,* the highest available, from NHTSA thanks to forward-thinking safety features designed to help make every drive a safer drive.

Vehicle Stability Assist™ (VSA®)
VSA helps you stay on course in the event of an understeer or oversteer condition by braking individual wheels and/or reducing engine power to help restore your intended course.

Advanced Compatibility Engineering™ (ACE™) Body Structure
The ACE body structure is a Honda-exclusive body design that enhances occupant protection and crash compatibility in frontal collisions.

Multi-Angle Rearview Camera
See more of what's behind you and back up with confidence thanks to the multi-angle rearview camera with guidelines, standard on every HR-V.

SmartVent® Airbags
Front side airbags feature SmartVent technology designed specifically to help protect the driver’s or front passenger’s upper torso in the event of a side-impact collision.**

*Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration’s New Car Assessment Program (www.safercar.gov).† VSA is not a substitute for safe driving. It cannot correct the vehicle’s course in every situation in which you lose control. Control of the vehicle always remains with the driver. ‡Please remind you and your passengers to always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in the rear seat.
Personalize your new HR-V.

Manufactured to the same strict standards as Honda vehicles, Honda Genuine Accessories are the perfect way to personalize and protect your vehicle. Please see your Honda dealer for details and a complete list of accessories.
