European Model Shown.
From the very first moment, the Q60 Convertible elicits a deeper connection. You can see it in its alluring form and powerful stance. Feel it in its meticulous detail. Hear it in your heartbeat. Then open the top, and expose every sense to the sights, sounds, even the smells of performance at its fullest effect.
COUPE-LIKE DESIGN is never compromised, even when engineering a vehicle to be fully enjoyed with the top down. With its three-piece design, the power retractable hardtop maintains a flowing, elegant shape when up, and hides beneath a fully styled trunk lid when folded down.

TOUCHPAD TOP OPENING seamlessly transforms its seductive profile by allowing you to retract the hardtop through the driver's door handle request switch.
Outrunning your worries or chasing the wind? Whether you seek to escape or to capture the fleeting feeling of thrill, the Q60 Convertible responds powerfully under your command. The intensity of acceleration eagerly awaits.

3.7-LITER VVEL® V6 ENGINE continually adjusts its breathing to perform at its peak. 325 hp and 267 lb-ft of torque are on tap and tuned to respond energetically, so any acceleration is an invitation to play.

DOWNSHIFT REV MATCHING expertly translates a high-performance driving technique. Flick the magnesium paddle shifter for a lower gear and it blips the throttle to ready the engine for the new gear. Smoother, quicker downshifts mean balance and response.
DUAL FLOW PATH® SHOCK ABSORBERS adjust damping forces based on road conditions to maintain the perfect ride and precise response that suits all your moments behind the wheel.

FRONT-MIDSHIP PLATFORM places the engine closer to the center of the car so your Q60 Convertible will spring into corners and maintain stability driving out of them.

SPORT-TUNED STEERING GEAR RATIO® creates a precise connection that reacts immediately for quicker turn-in response while requiring less overcompensation in steering. More time with your hands on the wheel means more confidence and control.
Compromise should never be required. You know what you desire and every moment of your experience should be exactly as you anticipate it to be, thanks to luxury that anticipates your needs and caters to your comfort.

**ADAPTIVE CLIMATE CONTROL SYSTEM** automatically adjusts the fan speed and temperature to maintain a comfortable, consistent environment based on position of the top, ambient air temperature and speed of the wind flowing by.

**CLIMATE-CONTROLLED SEATS** surround you in greater comfort by pushing cool or warm air through the front seats to keep you entirely in your preferred temperature zone. Arrive at your destination refreshed and relaxed.

Information Provided by:
Every time you approach, it's a new seduction. Every drive embeds a furtive desire to want more.

IN SURRENDER

INFINITI INTELLIGENT KEY personalizes your vehicle to suit you without ever leaving your pocket or purse. Simply pressing the switch on the door handle unlocks the doors, while the seat, outside mirrors, and steering wheel automatically adjust to your personal preferences—ready to please and to excite.
OBJECT OF ATTRACTION

2014 INFINITI Q60 CONVERTIBLE

Information Provided by:
FINER FABRICS The seat belt is one of the few surfaces you continually touch, so we found a variable herringbone weave for the webbing that is softer than standard webbing. Not only is it more pleasing to the touch, but being more compliant, it allowed us to reduce the friction of the seat belt mechanisms. The seat belt is more comfortable to wear, easier to pull out and even less likely to snag the thread of your finest fabrics. No element is too small.

PERSONAL CONNECTION The ingenuity of the Infiniti Intelligent Key system allows you to lock and unlock both doors, open the windows, and open the rear decklid remotely with a press of a button. With the key in your possession, it communicates with your vehicle to let you access the door locking functions and open the rear decklid through their respective switches.

AMBIANCE A welcoming and evocative space is measured by its ability to stir your emotions.

OPTICAL PERFECTION Where interior components meet—where the dash meets the door or the center console—they are assembled not to be mathematically perfect, but to look perfect. This requires an exacting manufacture process, tightening the space where dashboard meets door from 3mm to 2.4mm in order to achieve a seamless visual design from the driver’s point of view. But we believe in considering every angle in creating an emotionally transcendent environment.
INNATELY RESPONSIVE BALANCE. Dynamic handling is built right into the foundation of the Q60 Convertible, thanks to its Front-Midship Platform. Placing the engine’s center of mass just behind the front wheel center line creates a near-equal front-to-rear weight ratio, with a slight front bias that you’ll feel as quicker turn-in and even balance as you accelerate out of a corner.

PERFORM

Underneath its alluring physique lies the foundation of the thrilling dynamics of Infiniti Direct Response performance engineering.

LIMITLESS RUSH. Acceleration Swell is our vision of power, dedicated to delivering a shape and feel to acceleration. By tuning Infiniti engines to unleash torque that climbs over a broader rev range, the force you feel seems to increase the faster you go—building like the rush of a continually rising wave, peaking ever higher. The emotional energy surges in tandem, making Swell feel like a limitless rush more than a momentary thrill.

3.7-LITER V6 ENGINE. A potent blend of exciting response and intelligent efficiency. Benefitting from Variable Valve Event and Lift (VVEL TM ) technology, the engine adjusts on the fly to make the most of every bit of fuel and every breath it takes. The result is a stirring 325 horsepower that still manages to achieve up to 26 miles per gallon.

SPORT BRAKES®. Aluminum 4-piston opposed front calipers with ventilated discs and 2-piston opposed rear calipers with ventilated discs provide great stopping force from both sides of the rotor at the same time for better bite, more friction and direct feel.

DUAL FLOW PATH® SHOCK ABSORBERS. This unique dual-flow-path valve increases the damping force relative to the piston speed during cornering for effective control of body roll. It lowers the damping force in relation to the piston speed so as to isolate tiny undulations and large force inputs. In this way, the dual-flow-path valve functions to achieve nimble handling and superior ride comfort on any road.

THE SOUND OF PERFORMANCE. A performance car speaks to you through its exhaust, and the specialty exhaust tuning on the Q60 Convertible shapes that sound into something uniquely compelling. Not only does it make an Infiniti unmistakable, it makes every trip up and down the tachometer an experience that transcends engineering and enters the realm of pure emotion.

SHARPER SHIFTS. When you flick the magnesium paddle shifter泰 for a lower gear, Downshift Rev Matching blips the throttle to ready the engine for the new gear. It gives you the power of expert performance driving by delivering smoother, quicker downshifts for increased stability and more consistent engine power.
AUDITORY INDULGENCE  The Bose® Open Air Sound System delivers a powerful sonic experience, top-up or top-down. The system creates optimal sound by automatically adjusting the volume and equalization based on vehicle speed and wind noise and delivers it through four in-headrest speakers and nine more speakers throughout the cabin. The speakers work in concert so you can experience crystal-clear and consistent sound, adding to the richness of your drive.

ASSIST/ENTERTAIN  Infiniti InSuite™ integrates a host of intuitive technologies to simplify tasks and anticipate your needs as they keep you in touch with and in control of your world.

SECURING YOUR SPACE  Intelligent Cruise Control employs a laser sensor to monitor the distance between you and the vehicle in front of you. When traveling above 45 mph, it automatically slows you down when traffic slows and re-accelerates to your preset speed when the way clears.

A BETTER VIEW OF YOUR WORLD  Infiniti Hard Drive Navigation System is packed with advanced yet intuitive technology that makes it both more informative and easier to use. Birdview perspective control gives you a more natural view of the map, while 3-D building graphics make it easy to locate your destination in crowded urban environments. Also, you can simply speak your instructions to the system, thanks to full integration with Infiniti Voice Recognition.

ENHANCED AWARENESS  When in reverse, the RearView Monitor turns on to display colored guidelines to give you an accurate sense of how close your proximity is to objects behind, and adjusts as you turn, to show your path. The Rear Sonar System alerts you by emitting a beeping tone and displays an icon on the RearView Monitor when the vehicle approaches a detected obstacle in reverse. It intuitively puts you in control, while simultaneously putting you at ease.

OPTIMIZED COMFORT  The dual occupant memory system allows two custom profiles for the driver’s seat. Depending on which key you possess, the preferred settings for the seat, steering column, and mirrors are automatically executed after unlocking the door, giving both drivers an intimate level of comfort.
STRONGER AND LIGHTER

Ultra high-strength steel is used to help enhance your safety in the case of a collision. The unique process used to create this material can give it more than twice the tensile strength of conventional steel. Not only does this ultra-strong material add to the vehicle’s resiliency, it allows us to make the vehicle lighter overall.

1350 MPa
ULTRA-HIGH TENSILE
STRENGTH STEEL

590 MPa
CONVENTIONAL STEEL

BETTER STABILITY WHILE STOPPING

Electronic Brake force Distribution adjusts the amount of brake force applied to the front and rear wheels for improved braking performance. It not only helps the brakes wear more evenly, it reduces front-end “dive” during heavy braking, helping increase the stability of your vehicle.

ALWAYS LOOKING FOR DANGER

The 4-wheel Anti-lock Braking System (ABS) is enhanced by Brake Assist, which helps apply the maximum brake force you need to help prevent a collision. The Preview Braking function uses the available Intelligent Cruise Control laser sensors to analyze your closing speed to the vehicle ahead of you, and then prepressurizes the braking system in anticipation of emergency braking.

ROLLOVER PROTECTION WITH POP-UP ROLL BARS

If an impending rollover is detected, dual Pop-up Roll Bars engage automatically behind the rear seats to help protect occupants. Structurally reinforced A-pillars, body sills and body structure help enhance overall passenger safety.

HELping YOU STAY IN CONTROL

Comparing actual vehicle cornering performance to the driver’s input, Vehicle Dynamic Control adjusts power levels and applies appropriate brake pressure to individual wheels to help correct oversteer or understeer, helping keep the vehicle on the steered path. Working in tandem, the Traction Control System senses wheelspin and automatically helps give you a surer foothold.

PROTECTION

The Infiniti Safety Shield concept—our comprehensive approach to safety—lays technologies to monitor conditions, help you avoid a collision, and help protect you and your passengers if one occurs.

THE SUPPORT YOU NEED

In certain rear-end collisions, the Front-seat Active Head Restraints found on the Q60 Convertible can move forward to help cushion the head to help assist in reducing whiplash-type injuries.

ENHANCED PROTECTION

Infiniti puts an array of air bags between you and an impact, including dual-stage front supplemental air bags of the Infiniti Advanced Air Bag System that adjust inflation rates based on the severity of the crash and seat belt usage. Also featured are front seat-mounted side-impact supplemental air bags and door-mounted curtain side-impact supplemental air bags.
The Q60 IPL Convertible heightens the levels of luxury and performance. The exclusive IPL-tuned engine reaches 343 hp, intensifying the feel of acceleration, while modified spring rates provide improved performance for taut handling. Witness firsthand the expertly tuned double-wishbone front and multi-link rear suspension that provides a balanced, luxurious feel.

Styling of the Q60 IPL Convertible is sharpened with lightweight, aluminum-alloy 19-inch wheels and amplified front fascia and side sills that visually express the elemental strength contained within. The enhancements find their way inside as well with sculpted, deep-bolstered seats with unique IPL embroidery, ready to embrace the driver and front passenger in soft, sumptuous leather. As luxurious as it is stunning, passion finds its peak in the Q60 IPL Convertible.
SELECTION

Hues that change in response to light and angle. Matching exterior and interior colors to reflect the distinctive energy and mood of the seasons. These are just a few ways Infiniti uses paint to express feeling, evoke confidence, and shape the emotional essence of a vehicle.

MOONLIGHT WHITE (QAA)
LIQUID PLATINUM (K23)
GRAPHITE SHADOW (KAD)
VENETIAN RUBY (NAH)
MALBEC BLACK (GAC)
BLACK OBSIDIAN (KH3)

Infiniti has taken care to ensure that the color swatches presented here are the closest possible representations of actual vehicle colors. Swatches may vary slightly due to the printing process and whether viewed in daylight, fluorescent or incandescent light. Please see the actual colors at your local Infiniti retailer.
GENUINE INFINITI ACCESSORIES

The same exacting standards applied to the creation of an Infiniti vehicle go into designing and manufacturing Genuine Infiniti Accessories. With a wide array of quality products designed to integrate seamlessly, you can be assured of a custom fit and finish.

19-INC BRIGHT FINISH WHEELS These leave no question as to your dedication to making the right impression wherever you go. Their sculpted design utilizes lightweight aluminum alloy and original Infiniti logo center caps. Requires Sport Package or Sport 6MT.

SPORT MUFFLER The polished, stainless steel muffler showcases a deeper, throaty exhaust tone. Larger diameter exhaust tips help let it breathe and the muffler is fabricated with TIG welds for a precision-crafted appearance.

INTERIOR AMBIENT LIGHTING The warm and engaging glow welcomes you as you get settled. It adds ambience to the interior and enhances the interior’s modern appeal.

STAINLESS STEEL ILLUMINATED KICK PLATES The Infiniti logo glows softly along the bottom of the doorsills—a signature flourish you and your passenger will appreciate every time you get in.

INFINITI VALVE STEM CAPS A distinctive detail that’s also functional. These valve stem caps display your pride in choosing to drive an Infiniti, while they help improve the durability of your wheel valve stems by eliminating the seizing that can occur with metal valve stem threads.

SPLASH GUARDS The color-matched splash guards reduce spray on lower body panels, while helping prevent nicks and scratches caused by road debris under most weather conditions. Not available with Aerodynamic Kit.

ACCESSORIES SHOWN Aerodynamic kit (3-piece), 19-inch, 9-spoke aluminum-alloy wheels, midnight black grille, rear wind deflector.

**SPECIFICATIONS**

**POWER**

- **Engine**
  - 3.7-liter (3,696cc) 24-valve IPL-tuned V6 with IPL engine cover, aluminum-alloy block and heads
  - 3.7-liter CVTCS (Continuously Variable Transmission Control System) optimizes opening of intake and exhaust valves
  - Variable Valve Event and Lift (VVEL®) for intake valves improves performance, emissions and fuel efficiency
  - Aluminum 4-piston opposed front calipers with 14.0 x 1.3-inch ventilated discs/2-piston opposed rear calipers with 13.8 x 0.8-inch ventilated discs; 4-wheel, 4-channel ABS
  - Front fog lights
  - High Intensity Discharge (HID) bi-functional xenon headlights

- **Drivetrain**
  - Sequential manual transmission with Solid-magnesium paddle shifters
  - Solid-magnesium pedal set and footrest

- **Fuel Economy**
  - EPA Estimated Fuel Economy (mpg) 2 (city/highway) 18/26 16/24 18/26
  - 267 lb-ft @ 5,200 rpm
  - 343 hp @ 7,400 rpm

- **Type**
  - 2-door coupe

- **Transmission**
  - Standard: 6MT
  - Available: Q60 IPL 6MT

- **Internal**
  - Dual Flow Path® shock absorbers, stabilizer bar

- **Plug-in Powertrain**
  - Infiniti Voice Recognition for audio, information and navigation systems

- **Equipment**
  - Multi-function trip computer with fuel range and outside temperature display

- **Dimensions**
  - Exterior (inches): Width: 73.2, Height: 50.1
  - Interior (inches): Width: 102.4, Height: 45.9

- **Performance Features**
  - Dual Flow Path® shock absorbers, stabilizer bar

- **Turning Radius**
  - 41.2 ft

- **2022 BEST CAR TO BUY**
  - zagat survey restaurant reviews
  - kbb best car to buy

- **2021 FLORIDA BEST CAR TO BUY**
  - zagat survey restaurant reviews

**INTERIOR (continued)**

- **Power**
  - Standard: 3.7-liter (3,696cc) 24-valve IPL-tuned V6 with IPL engine cover, aluminum-alloy block and heads
  - Available: 3.7-liter (3,696cc) 24-valve V6 engine, aluminum-alloy block and heads

- **Valuation**
  - Drive Type
  - Gearshifts and Downshift Rev Matching (DRM) algorithm senses driving style and adjusts automatic shifting accordingly. Manual shift mode offers sequentially selectable manual
Safety

- Remote keyless entry system with selective unlocking of driver’s door or all doors
- 4-wheel Anti-lock Braking System (ABS)
- Electronic Brake force Distribution (EBD)
- Zone Body construction with reinforced passenger compartment and front and rear crumple zones
- Second-row 3-point rear seat belts with ELR and ALR
- 3-point front seat belts with pretensioners and load limiters, driver’s seat Emergency Locking Retractor (ELR) and front-passenger’s seat
- Door-mounted curtain side-impact supplemental air bags

4-wheel ABS and EBD help to control vehicle stopping power and stability. Anti-lock brakes help prevent the braking system from locking up and keep you in greater control during braking.

- Voice Recognition for audio, navigation, and vehicle information systems
- DVD or digital file from a USB flash drive on 7-inch WVGA color display
- Streaming audio via Bluetooth
- Rear Sonar System
- Sport-tuned steering
- Sport front fascia
- Solid-magnesium paddle shifters
- Aluminum 19 x 8.5-inch, split V-spoke aluminum-alloy wheels with 225/45R19 summer performance tires (front) and 19 x 9.0-inch, aluminum-alloy wheels with 235/40R19 summer performance tires (rear)

• Navigation Package • Technology Package

Tire Pressure Monitoring System (TPMS) measures individual tire pressure and illuminates a low tire pressure warning light when one or more of your tires are under-inflated. It is not a substitute for regular tire pressure checks. Periodically have your tires checked for proper tire pressure even if the low tire pressure warning light is not illuminated. If your tire pressure is low, your vehicle may be more difficult to control, and fuel economy may be negatively affected. It’s important to maintain the correct tire pressure. Overinflating your tires can reduce their contact patch with the road, and underinflating your tires can cause them to overheat.  TPMS is not a substitute for proper tire maintenance, and it is the driver’s responsibility to maintain correct tire pressure.

PARTNERS IN THE INTENSE

The pulse races. Seconds split. Victories are won and lost. In Formula 1™, technology and human ingenuity are pushed to the limit. Yet, success is ultimately a measure of the passion that goes into every invention and is released every lap. This passion has led Infiniti Red Bull Racing to become, in recent years, the most dominant force on track.

Infiniti is drawn to Formula 1™ racing because it is engineering genius applied purely to creating emotional excitement. A feeling of exhilaration that extends from the track to the fans, to the culture, through our partner: Infiniti Red Bull Racing. The heart and determination the team has shown has led to three Formula 1™ Constructors’ World Championships in a row. Our synergistic relationship is one that promises thrilling new performance capabilities for both Formula 1™ and Infiniti vehicles.

This exchange of both technology and ideas now includes the appointment of 3-time Formula 1™ Drivers’ World Champion, Sebastian Vettel, as our Director of Performance. Sebastian has already aided in the development of the all-new Infiniti Q50—harnessing his supreme driving senses and passion for performance to ensure this new vehicle is as dynamic as possible. And now, future Infiniti vehicles will be imprinted with the genius and unrivaled passion that defines his greatness.

Ultimate luxury is more than perfection. It is the feeling of unrestrained joy that unleashes something special in your heart. We at Infiniti believe there are times when reason should take a backseat and emotion—pure and primal—should be the driver. Tangibles play a part, of course: the sensual, flowing lines; the smell of leather; the visceral roar of the engine. Established in 1989, Infiniti’s flagship line has now grown to include sedans, coupes, convertibles and crossovers, all available in 49 countries worldwide. Infiniti has generated respect as the provocateur brand in the premium category, with a reputation for defying convention and creating irresistible and provocative automobiles, engineered with obsessive attention to detail. Our passion for ultimate precision, exhilarating performance and that exuberant driving experience is also manifested in the partnership that Infiniti established with Red Bull Racing in 2011. All of which contributes to the feeling that to drive an Infiniti is something special.
