Today, things are different. Small is big. Smart is sexy. And living richly isn’t about how much you spend. The perfect car for this new way to roll? The 2014 Versa® Sedan. With a spacious interior, advanced technology and performance that’s as responsible as it is responsive. Change is good. Especially when it looks like this.

WOULDN’T IT BE COOL IF... A CAR COULD GIVE YOU A WHOLE NEW VIEW?

Wouldn’t it be cool if you didn’t need a cramped car, a tiny engine or a hybrid powertrain to save fuel and help the environment? With Versa®, you get excellent fuel economy in a roomy, comfortable car that’s lots of fun to drive. We got there by developing everything from exterior aerodynamics that whisper through the wind to an advanced 1.6-liter 4-cylinder engine to a virtually gearless Xtronic CVT® transmission that maximizes efficiency and performance. The PUREDRIVE™ badge also means that Versa® meets or exceeds the industry-average US Federal CAFE standards for model-year 2016.6 And best of all, Versa® is just one of a family of PUREDRIVE™ vehicles, reflecting Nissan’s commitment to developing more environmentally friendly transportation for all of us.
FREEDOM STARTS WHEN YOU GET BEHIND THE WHEEL.
A little bit of planning goes a long way. When designing Versa’s interior, we pushed the wheels to the corners, allowing the suspension to move out and away from the cabin. The result? The most rear leg room in its class. Carpool or road trip, looks like Versa is a star.
**NISSANCONNECT**™

### PLAY IT LOUD WITH APPS.

**Pandora® radio compatibility.** Looking for something new? Explore music based on your hand-picked favorites using Pandora® radio compatibility. Connect your Pandora®-equipped iPhone® through the USB input to listen to Pandora®’s free internet radio and use the ‘thumbs up’ or ‘thumbs down’ icons to rate songs – all right in the audio system display.

**Streaming audio via Bluetooth®.** Want to let your passengers play DJ? Just connect a Bluetooth®-enabled audio device, including your tablet, to stream music wirelessly, from any seat in the car.

**iPod®/USB input.** Wouldn’t you like to listen to your own playlists or podcasts? With the available iPod®/USB input, you can. Plug in your iPod® or other portable MP3 player through the USB port and control it through the audio controls.†

---

### MAP IT OUT WITH GOOGLE.

**Navigation.** Versa® Sedan’s available 5.8” touch-screen display offers NavTraffic and NavWeather for real-time advisories to keep you on the move. Plus over five million points of interest, so you’ll always have something new to discover.†

**Points of Interest powered by Google®.** Find that new restaurant, store or museum – even if you can’t remember what it’s called. Based on the latest information, NissanConnect’s compatibility with Google® Points of Interest lets you search for all kinds of places, even without knowing the name or category. Once you find it, select it and you’re on your way.

**Google® Send-To-Car.** NissanConnect’s compatibility with Google® Send-To-Car lets you send any address to your Nissan Navigation System using your favorite connected device, like a smartphone or computer. When you start the car and connect to the network, the directions will be delivered and loaded into your navigation system.†

**Hands-free text messaging assistant.** Now you can receive and respond to text messages without ever touching your phone. With a press of a button, your text messages read to you and answer with pre-loaded responses, all via voice recognition.†

Life is easier when you can bring everything you need. Versa® Sedan’s oversized trunk means there’s no need to compromise. Jam session after work? No problem. Load your kit in and keep it safe and out of sight. Inside, versatile storage options get things organized with places for all of your essentials – even those lucky drumsticks.

Clever Storage: Keep the things you need close at hand yet out of sight with Versa’s spacious glove compartment. There are also convenient places designed especially for your phone and MP3 player.

Split Fold-down Seats: An available 60/40 split fold-down rear seat gives you real flexibility carrying people and cargo. The huge pass-through means tall and wide items are always welcome along for the ride.

Cargo and load capacity limited by weight and distribution. Always secure all cargo.
NISSAN SAFETY SHIELD® PHILOSOPHY

Wouldn’t it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® technologies are a comprehensive approach to safety that guide the engineering and development of every vehicle we make. By keeping an eye on your vehicle’s systems and the surroundings, assisting in handling unexpected situations, and helping to keep you safe in the unfortunate event of an accident, the Nissan Safety Shield technologies are our way of looking out for you and yours.

MONITOR

Smart technologies help monitor conditions. Like a rearview camera that helps you see something behind you, or a system that helps ensure you’re traveling on properly inflated tires.

Tire Pressure Monitoring System with Available Easy-Fill Tire Alert 1, 2

Lets you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you’ve reached the correct pressure.

Available RearView Monitor 3

RESPOND

Whether you need to hit the brakes hard or maneuver around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

Vehicle Dynamic Control helps you maintain your steered path.

Traction Control System helps reduce wheelspin in low- traction situations.

Anti-lock Braking System helps you maintain steering control around obstacles while braking heavily.

Electronic Brake force Distribution sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

Brake Assist helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

PROTECT

When a collision is unavoidable, Nissan’s Zone Body construction helps absorb the impact while the advanced seat belt and air bag systems help protect passengers.

Nissan Advanced Air Bag System with dual-stage supplemental front air bags with seat belt and occupant-classification sensors

Front seat-mounted side-impact supplemental air bags

Roof-mounted curtain side-impact supplemental air bags

LATCH System (Lower Anchors and Tethers for Children)

Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: An industry first, The Snug Kids® Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at NissanUSA.com/SnugKids.
