Built to lead. The 2018 Toyota Tundra.

To build a machine as tough as the 2018 Toyota Tundra, it takes a nation. That’s why we employ this nation to build each and every Tundra. Engineering and design work for this full-size truck was done in Michigan and California, and it was assembled with pride in Texas\(^*\) and then stress-tested in Arizona. This teamwork helps ensure that Tundra delivers the toughness and durability you expect, making this one rig you can count on. And with standard features like the largest fuel tank in its class,\(^{1,}\) largest front brakes in its class,\(^{2}\) and the ability to tow up to 10,200 lbs,\(^{4}\) this truck can take you from work site to weekend without breaking a sweat. Now, let’s get to work.

\(*\) Assembled in Texas with U.S. and globally sourced parts.

Limited CrewMax shown in Blazing Blue Pearl with available power tilt/slide moonroof, running boards and Limited Premium Package. Prototype shown with options. Production model may vary.

See numbered footnotes in Disclosures section. *Assembled in Texas with U.S. and globally sourced parts.
Where power meets efficiency.

With two powerful i-FORCE engines to choose from — a brawny 5.7L V8 or an efficient 4.6L V8 — there’s a Tundra built to match your needs. Both engines feature Dual Independent Variable Valve Timing with intelligence (VVT-i) to optimize engine breathing for maximum power and efficiency. The Acoustic Control Induction System (ACIS) automatically adjusts intake runner length for optimal torque and performance. And to help handle the remarkable torque from the 5.7L V8, we equipped it with a 6-speed automatic transmission, two-piece drive shaft and massive 10.5-in. ring gear. So whether you’re towing, hauling or just heading home, you can rest assured that Tundra carries a payload of capability.

TUNDRA CHOICES

BIGGER JOBS AND SMALLER EFFORT WITH TUNDRA i-FORCE 5.7L V8

Tundra’s available i-FORCE 5.7L V8 has the muscle to cut big jobs down to size, delivering 381 hp and 401 lb.-ft. of torque, thanks to Double Overhead Cams, 32 valves and Dual Independent Variable Valve Timing with intelligence.

TAKE CHARGE OF ANY TERRAIN WITH TUNDRA i-FORCE 4.6L V8

Tundra’s 4.6L i-FORCE V8 may be compact, but the engine utilizes Dual Independent Variable Valve Timing with intelligence and Acoustic Control Induction System technology to produce an impressive 310 hp and 327 lb.-ft. of torque.
Rule the road, and the work site.

**Tundra CrewMax**
- Available on SR5, Limited, Platinum and 1794 Edition
- Features two full-size front doors and two full-size rear doors
- 5.5-ft. bed length
- Standard bench seat with fold-down center console; available front bucket seats
- Easy lower and lift tailgate

Ready for work and the weekend.

**Tundra Double Cab**
- Available on SR, SR5 and Limited
- Features two full-size front doors
- Two forward-hinged rear doors
- 6.5-ft. or 8.1-ft. bed lengths
- Standard bench seat with fold-down center console; available front bucket seats
- Easy lower and lift tailgate
Introducing the new king of the streets, the TRD Sport Package.

Toyota Racing Development (TRD) is one of the most revered names in performance. That's why the team at our exclusive in-house TRD facilities in North Carolina works tirelessly to ensure that every vehicle that carries the TRD badge is worthy of the name. Our latest creation, the TRD Sport Package, brings the attitude with exclusive features like a powerful hood scoop, unique sport-tuned suspension with TRD front and rear sway bars, and 20-in. alloy wheels with a black-accented finish. It’s one bold ride built to get your motor running.

TRD SPORT BILSTEIN® SHOCKS AND TRD FRONT AND REAR SWAY BARS

The TRD Sport Package gets a unique suspension that includes TRD front and rear sway bars and Bilstein® dampers – all tuned by the engineers at Toyota Racing Development.

LED HEADLIGHTS

More light. More efficiency. And a whole lot more attitude. In addition to the available LED fog lights, Tundra’s LED headlights incorporate a head-turning Daytime Running Lights (DRL) treatment, giving this truck an aggressive look that won’t be ignored.

TRD SPORT SHIFTER

Keep a firm grip on things. The leather-wraped shift knob features silver-accented trim and the TRD logo.
Works hard on the weekend too.

Because the words “cozy” and “charming” aren’t in our dictionary, we expect a lot more from our weekends. We crave dirt, speed and action. That’s why Tundra is the official pickup truck of the Monster Energy Supercross. And that’s also why we created the awesome Tundra TRD Off-Road Package. Available on 1794 Edition, Limited and SR5 grades, this package equips Tundra with unique wheels and tires, Bilstein® shocks tuned by Toyota Racing Development, and exclusive bedside decals. When equipped on 2WD Tundras, this package also includes front tow hooks. You know — the stuff you want when taking on gnarly terrain.
Auto LSD uses the rear brakes to simulate the action of a mechanical limited-slip differential and is much easier to maintain. With Auto LSD, Tundra automatically applies brake pressure to the powered wheel with limited to no traction without restricting engine power. This helps increase resistance at the slipping wheel, which in turn helps feed power to the wheel with grip. With Auto LSD, even a 4x2 Tundra can pull itself out of many low-traction situations.

TRD OFF-ROAD PACKAGE
This comprehensive upgrade package includes 18-in. split 5-spoke TRD Off-Road alloy wheels with black accents and all-terrain P275/65R18 tires, trail-tuned Bilstein shock absorbers, engine skid plate, fuel tank skid plate, front tow hooks, and bedside TRD Off-Road decals.

4WD ACTIVE TRACTION CONTROL (A-TRAC)
Tundra models equipped with 4WD include an A-TRAC system that optimizes traction across the front and rear axles simultaneously, helping improve grip on low-traction surfaces. This A-TRAC system also allows full use of the 2-speed transfer case, so you always have on-demand access to Tundra’s incredible torque.

AUTOMATIC LIMITED-SLIP DIFFERENTIAL (AUTO LSD)\(^4\)
Auto LSD uses the rear brakes to simulate the action of a mechanical limited-slip differential and is much easier to maintain. With Auto LSD, Tundra automatically applies brake pressure to the powered wheel with limited to no traction without restricting engine power. This helps increase resistance at the slipping wheel, which in turn helps feed power to the wheel with grip. With Auto LSD, even a 4x2 Tundra can pull itself out of many low-traction situations.
Toyota Safety Sense™ P (TSS-P) is an active safety package that comes standard on every new Toyota Tundra. This advanced precautionary safety system combines the Pre-Collision System with Pedestrian Detection (PCS w/PD), Lane Departure Alert (LDA) with Sway Warning System (SWS), Automatic High Beams (AHB), and Dynamic Radar Cruise Control (DRCC) to assist you. TSS-P’s comprehensive features create in-the-moment safety designed to support your awareness and decision-making on the road.

**LANE DEPARTURE ALERT (LDA)**

Under certain circumstances, Lane Departure Alert (LDA) is designed to detect lane departure on roads with clear markings. LDA only activates when you’re traveling at a speed of 32 mph or faster. When you hear and see the alert, after carefully checking the road around you, you should safely direct your vehicle back to the center of your lane.

**AUTOMATIC HIGH BEAMS (AHB)**

Automatic High Beams (AHB) are a safety system designed to help you see more clearly at night — without blinding other drivers. Designed to activate at speeds above 25 mph, AHB rely on an in-vehicle camera to help detect the headlights of oncoming vehicles and taillights of preceding vehicles, then automatically toggle between high and low beams accordingly to provide the appropriate amount of light. By using high beams more frequently, the system may allow earlier detection of pedestrians and obstacles.

**PRE-Collision SYSTEM WITH PEDESTRIAN DETECTION (PCS w/PD)**

Using an in-vehicle camera and radar to help detect a vehicle or a pedestrian in front of you, the Pre-Collision System with Pedestrian Detection (PCS w/PD) can help you mitigate or avoid a potential collision. If the system determines that a frontal collision is likely, it prompts you to take action using audio and visual alerts. If you notice the potential collision and apply the brakes, PCS w/PD may apply additional force using Brake Assist (BA). If you don’t brake in time, it may automatically apply the brakes to reduce your speed, helping to minimize the likelihood of a frontal collision or reduce its severity.

**DYNAMIC RADAR CRUISE CONTROL (DRCC)**

Intended for highways and similar to “constant speed” cruise control, Dynamic Radar Cruise Control (DRCC) lets you drive at a preset speed. DRCC uses vehicle-to-vehicle distance control, which adjusts your speed, to help you maintain a preset distance from vehicles ahead of you that are driving at a slower speed. DRCC uses a front-grille-mounted radar and an in-vehicle camera designed to detect vehicles and their distance. If a driver is traveling slower than you, or within your preset range, DRCC will automatically slow your vehicle down without deactivating cruise control. If DRCC determines you need to slow down more, an audio and visual alert notifies you and brakes are applied. When there’s no longer a vehicle driving slower than your set speed in front of you, DRCC will then accelerate and regular cruise control will resume.

See numbered footnotes in Disclosures section.
Heavy-duty safety to help carry you through the long haul.

Toyota’s Star Safety System™ is a suite of six safety features offered standard on every new Toyota. The system includes Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Brake System (ABS) with Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology® (SST).

Termed “active” safety features, they’re designed to operate in certain situations to help prevent accidents from occurring in the first place.

INTEGRATED TRAILER BRAKE CONTROLLER

All 2018 Tundras equipped with the i-FORCE 5.7L V8 come standard with an Integrated Trailer Brake Controller. When connected to a compatible trailer, this system will help your trailer apply its brakes when you apply the brakes in your Tundra. You can also easily monitor system controls while driving via the Multi-Information Display. In other words, it’s one more way Tundra gives you more control over what’s going on behind you.

EIGHT AIRBAGS

Tundra also comes equipped with driver and front outboard passenger airbags, side curtain airbags, and front seat-mounted side airbags. Additionally, driver and front outboard passenger knee airbags are standard equipment.

STAR SAFETY SYSTEM™

Star Safety System™ includes Vehicle Stability Control (VSC), Traction Control (TRAC), Anti-lock Brake System (ABS) with Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Smart Stop Technology® (SST). At speeds greater than five miles per hour, when the accelerator is depressed first and the brakes are then applied firmly for longer than one-half second, Smart Stop Technology® is designed to help the driver bring the vehicle to a stop.

See numbered footnotes in Disclosures section.
Platinum CrewMax shown in Midnight Black Metallic with available chrome tube steps. Prototype shown with options. Production model may vary.
Comfort is its strong suit.

There’s nothing wrong with embracing one’s softer side — especially when that softer side is found inside Tundra. The optimal blend of functionality and comfort, this spacious cabin gives you and your crew plenty of room to stretch out. Premium materials are used throughout, giving this rugged interior a solid, upscale feel. An intuitive control layout puts what you need right where you need it, and available dual zone climate control helps ensure that everyone stays comfortable, no matter the ride. And for those times when you want to take in some fresh air, CrewMax also features a standard power vertical rear window.

INTUITIVE CONTROL LAYOUT
Tundra features a 4.2-in. full-color Multi-Information Display to help you get useful driving data at a glance. This screen can be programmed to show features including an odometer, trip meters, average fuel economy, cruising range and Toyota Safety Sense™ P (TSS-P)™ alerts. On Tundras equipped with the 5.7L V8, this screen can be programmed to function as an Integrated Trailer Brake Controller™ monitor.

DUAL ZONE CLIMATE CONTROL
Tundra is available with dual zone automatic climate control with individual temperature settings for the driver and front passenger. We know your truck can double as your office, so this helps keep everyone comfortable.

SPLIT FOLD-UP REAR SEATS
To create even more usable cabin space, Double Cab and CrewMax rear seats fold up, instead of flat. This not only creates more room, but it also makes it easier to load cargo.46

See numbered footnotes in Disclosures section.
A smarter way to take command.

Whether you’re hitting the river or heading to the job site, Tundra’s got the tech to help you keep track of the stuff that matters most. The powerful Entune™ Audio system with backup camera comes standard, as does Trailer-Sway Control. As the first full-size pickup to offer Blind Spot Monitor (BSM) and Rear Cross-Traffic Alert (RCTA), Tundra continues to redefine the segment, as well as safety. And the redesigned gauge cluster, featuring premium Optitron gauges and a 4.2-in. Multi-Information Display, puts Tundra’s vitals front and center. It’s tech that works hard for you, so all you have to do is enjoy the ride.

See numbered footnotes in Disclosures section.
1794 Edition CrewMax interior shown in premium Brown leather trim. Prototype shown with options. Production model may vary.
Take towing to a whole new level.

Tundra owners take on and tow a lot — workloads, home improvement projects and last-minute getaways. When properly equipped, Tundra has a payload capacity of up to 1730 lbs.; plus an available deck rail system and an easy lower and lift tailgate, to make these adventures a little easier to tackle. Some say loading, unloading, hauling and towing a ton of lumber, gear and supplies is a ton of work. Tundra owners have another word for it: Saturday.

**AVAILABLE DECK RAIL SYSTEM**

**TIE-DOWN CLEATS**

Used in tandem with the deck rail system, tie-down cleats are constructed of sturdy die-cast aluminum. Each fully adjustable cleat slides along Tundra’s deck rail system and is anchored to help ensure that what’s in the bed stays in the bed.

**POWERFUL BRAKES**

A big part of controlling a trailer is having the ability to stop it. To that end, Tundra has the largest-in-class front brakes equipped with 4-piston brake calipers.

See numbered footnotes in Disclosures section.
1794 Edition CrewMax shown in Smoked Mesquite with available power tilt/slide moonroof and running boards. Prototype shown with options. Production model may vary. See numbered footnotes in Disclosures section.
TUNDRA MODELS

SR
Available in Double Cab
Choice of Drivetrain
- 5.7-Liter Aluminum i-Force V8 DOHC 32-Valve with Dual Independent Variable Valve Timing with intelligence (VVT-i)
- 381 hp @ 5600 rpm; 401 lb.-ft. @ 3600 rpm
- 6-speed Electronically Controlled automatic Transmission with intelligence (ECT-i)
- Includes Tow Package

Exterior Features
- Gray honeycomb-style grille with chrome surround
- 18-in. styled steel wheels
- LED Daytime Running Lights (DRL)
- Front and rear mudguards
- Black heated power outside mirrors
- Towing hitch receiver (4.6L V8 only)

Interior Features
- 40/20/40 split fold-down front bench seat
- Power windows and door locks
- 4.2-in. Multi-Information Display (MID)
- Entune™ Audio with 6.1-in. touch-screen
- Integrated backup camera
- Bluetooth® wireless technology
- USB 2.0 port with increased charging capability
- iPod® connectivity
- Integrated Trailer Brake Controller (5.7L V8 only)

Safety Features
- Toyota Safety Sense P (TSS-P) includes:
  - Pre-Collision System™ with Pedestrian Detection (PCS w/PD)
  - Lane Departure Alert (LDA) with Sway Warning System (SWS)
  - Automatic High Beams (AHB)
  - Dynamic Radar Cruise Control (DRCC)

Options
- Work Truck Package
- Tow mirrors (5.7L V8 only)
- Running boards
- Deck rail system

See numbered footnotes in Disclosures section.

SR5
Available in Double Cab and CrewMax
Adds to or replaces features offered on SR
Choice of Drivetrain
- 5.7-Liter Aluminum i-Force V8 DOHC 32-Valve with Dual Independent Variable Valve Timing with intelligence (VVT-i)
- 381 hp @ 5600 rpm; 401 lb.-ft. @ 3600 rpm
- 6-speed Electronically Controlled automatic Transmission with intelligence (ECT-i)
- Includes Tow Package

Exterior Features
- LED headlights
- 20-in. machined-finish alloy wheels
- Chrome heated outside mirrors
- Silver billet-style grille with chrome surround
- Deck rail system
- 38-gallon fuel tank

Interior Features
- Leather-trimmed seats (front bucket seats with center console)
- Heated front seats with power driver and passenger seating
- Power sliding rear window
- Dual zone automatic climate control
- Auto-dimming rearview mirror with compass and HomeLink® universal transceiver
- Entune™ Premium JBL® Audio with Integrated Navigation and App Suite (CrewMax only)

### TRD Sport Package
- Upgrades standard wheels to 20-in. 6-spoke TRD Sport Package alloy wheels with black accents and luxury Sport P275/55R20 tires; includes sport-tuned Bilstein® shock absorbers, TRD front and rear sway bars, updated honeycomb-style grille with color-keyed surround, color-keyed mirror caps, color-keyed front and rear bumpers, LED headlights and LED fog lights, TRD Sport floor mats; TRD shift knob, hood scoop, and bedside TRD Sport decals: requires SR5 Upgrade Package (5.7L only)

### TRD Sport Convenience Package
- Includes front and rear parking assist sonar,35 Blind Spot Monitor (BSM)2 and Rear Cross-Traffic Alert (RCTA)36 requires TRD Sport Package (5.7L only)

### TRD Off-Road Package
- Upgrades standard wheels to 18-in. split 5-spoke TRD Off-Road Package alloy wheels with black accents and all-terrain P275/65R18 tires; includes trail-tuned Bilstein® shock absorbers, engine skid plate, fuel tank skid plate, front tow hooks (on 4x2 models; standard on all 4x4 models), LED headlights and LED fog lights (SR5 models only), TRD Off-Road floor mats (SRS and Limited models only), and bedside TRD Off-Road decals

### Limited Premium Package
- Combines the Convenience Package, which includes front and rear parking assist sonar;26 Blind Spot Monitor (BSM) and Rear Cross-Traffic Alert (RCTA)23 (upgrades to color-keyed rear bumper), with additional convenience features including: power windows with driver and front passenger auto up/down; cab, driver footwell and ignition key illuminated entry system; an anti-theft system with alarm, Glass Breakage Sensor (GBS);39 engine immobilizer38 and Entune™ Premium JBL® Audio with Integrated Navigation17 (JBL® Audio on CrewMax only)

### Convenience Package
- Includes front and rear parking assist sonar;26 Blind Spot Monitor (BSM) and Rear Cross-Traffic Alert (RCTA)23 (upgrades to color-keyed rear bumper; requires SR5 Upgrade Package on SR5 models)

### SR5 Upgrade Package
- Adds larger fuel tank (5.7L V8 only), replaces front bench seating with front bucket seats with power driver’s seat with power lumbar support, adds front center console with floor-mounted urethane shift lever and knob, tilt/telescopic urethane steering wheel, three front cup holders, auto-dimming rearview mirror with compass and HomeLink® universal transceiver, and an anti-theft system with alarm and engine immobilizer38

### SR Work Truck Package
- Adds durable vinyl seating and flooring and removes wireless door lock feature

### Entune™ Premium Audio with Integrated Navigation17 and App Suite18
- Includes Entune™ Multimedia Bundle (7-in. high-resolution touch-screen with split-screen display, AM/FM CD player with MP3/WMA playback capability, nine speakers (seven speakers on Double Cab), auxiliary audio jack, USB 2.0 port with iPod® connectivity and control, advanced voice recognition; hands-free phone capability, phone book access and music streaming via Bluetooth® wireless technology), Siri® Eyes Free®, Entune® App Suite®, HD Radio™ technology, HD Radio™ Predictive Traffic and Doppler Weather overlay, AM/FM cache radio, SiriusXM® Satellite Radio with 3-month complimentary SiriusXM All Access trial, Gracenote® album cover art, and integrated backup camera display: Access to Entune® App Suite® is subscription-free. See toyota.com/entune for details.

### Deck Rail System
- With four adjustable tie-down cleats

### Running Boards
- O/S

### Power Tilt/Side Moonroof with Sliding Sunshade
- O/S

ACCESSORIES

You own it. But there are a few things you might want to do before it’s really yours. Maybe it needs different wheels, tube steps or tie-downs, or a bed extender for doing the stuff that really matters to you. Whatever it is, ask your sales associate to see the 2018 Tundra Accessories brochure, a soup-to-nuts catalog of Genuine Toyota Accessories designed to give your Tundra the finishing touches that make it unmistakably yours. For a complete list of accessories, go to toyota.com/tundra.

Alloy wheel locks
All-weather floor liners
All-weather floor mat
Ball mount
Bed extender
Bed lighting
Bed mat
BedStep
Cargo divider
Cargo net — exterior

Cargo tote
Carpet floor mats
Cast aluminum running boards
Center console tray
Coin holder/ashtray cup
Deck rail camera mount
Deck rail system
Door edge guards
Doorsill protectors
Emergency assistance kit

Exhaust tip
First aid kit
Fog lights
Glass Breakage Sensor (GBS)
Hard tri-fold tonneau cover
Mini tie-downs with hooks
Paint protection film
Predator step
Skid Resistor bedliner
Spare tire lock

Spray-on bedliner
Trailer ball
TRD carpet floor mats
TRD oil cap
TRD oil filter
TRD radiator cap
Tube steps — black or chrome
“Tundra” tailgate insert badge (chrome or black)
Universal tablet holder

See numbered footnotes in Disclosures section.
CARS BUILT FOR THE WAY YOU LIVE

At Toyota, we build cars for how you live. From building advanced safety features designed to help prevent crashes to driving cross-country to understand how we can make your driving experience better, our work starts with understanding your needs. Building cars for how you live also means thinking about tomorrow — from fuel efficiency and environmental innovations, to things beyond cars, like a bicycle that you can control with your mind. And because what we learn building cars can help improve lives in other places, we do things like help communities rebuild their homes quickly after a disaster and work with soup kitchens to help them serve more people faster. Toyota. Built for how you live. Together we are going places.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that’s not idle boasting. We back it up with these Limited Warranty Coverages:

**Basic:** 36 months/36,000 miles (all components other than normal wear and maintenance items).

**Powertrain:** 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags).

**Rust-Through:** 60 months/unlimited miles (corrosion perforation of sheet metal).

**Emissions:** Coverages vary under Federal and California regulations. Refer to applicable Warranty and Maintenance Guide for details.

**Accessories:** For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty.

For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage.

You may be eligible for transportation assistance if it’s necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details.

For complete details about Toyota’s warranties, please visit www.toyota.com, refer to the applicable Warranty and Maintenance Guide or see your Toyota dealer.

For Toyota Mobility program details, go to www.toyota.com/mobility or call the Toyota Customer Assistance Center at 1-800-331-4331

Toyota Tundra is designed to meet most off-road driving requirements. Abusive use may result in bodily harm or damage. Toyota encourages responsible operation to protect you, your vehicle and the environment. Seatbelts should be worn at all times. Please do not allow passengers to ride in the cargo area. Towing hitch receiver/ball mount kits are not intended to provide crash protection.

For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle.

All information presented herein is based on data available at the time of posting, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.
DISCLOSURES
1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. See Toyota.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or different options, contact your dealer to check for current availability or the possibility of placing a special order.
2. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the monitor. See Owner’s Manual for additional limitations and details.
3. Do not rely exclusively on the blind spot monitor. Always look over your shoulder and use your turn signal. There are limitations to the function, detection and range of the rear view. See Owner’s Manual for additional limitations and details.
4. Before towing, confirm your vehicle and trailer are compatible, hooked up and loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner’s Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. “Added vehicle equipment” includes additional standard/original equipment and accessories added by dealers, and/or vehicle owners. The only way to be certain of your vehicle's exact curb weight is to weigh your vehicle without passengers or cargo. 45. 2018 EPA-estimated mileage. Actual mileage will vary.
5. Tread depth will vary depending on your driving style and road conditions. 2018 EPA-estimated mileage. Actual mileage will vary.
6. Entune™ is a trademark of Toyota Motor Corporation. Always drive safely, obey traffic laws and focus on the road while driving. Services vary by phone/carrier. Functionality depends on many factors. Services subject to change. For enrollment and more details, see toyota.com/entune. 7. May not be compatible with all mobile phones, MP3/WMA players and like models. 8. iPod® and iPhone® are registered trademarks of Apple Inc. All rights reserved. iPod® and iPhone® functionality are dependent on hardware, software, and services subject to change. Availability and accuracy of the information provided by Scout® GPS Link is dependent on many factors. Use common sense when relying on information provided.
8. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See toyota.com/entune for details.
9. The Pedestrian Detection system is designed to detect a pedestrian ahead of the vehicle, determine if impact is imminent and help reduce impact speed. It is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, size and position of pedestrians, and weather, light and road conditions. See Owner’s Manual for additional limitations and details.
10. Smart Stop Technology® operates only when the vehicle is stopped and the brake pedal is pressed. Certain vehicle and environmental factors, including an object's shape and composition, may affect the ability of the parking assist sonar to detect it. Sonar is designed to assist drivers in avoiding potential collisions at speeds of 9 mph or less. Certain vehicle and environmental factors, including an object's shape and composition, may affect the ability of the parking assist sonar to detect it. Use common sense when relying on information provided.
11. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Toyota is under license. A compatible Bluetooth® enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 12. Always drive safely, obey traffic laws and focus on the road while driving. Sir® is available on select iPhone®/iPad® models and requires Internet access. Sir® is not available in all languages or all areas and features vary by area. Some Sir® functionality and commands are not accessible in the vehicle. Data charges may apply. See apple.com and phone carrier for details. Sir® is a registered trademark of Apple Inc. 13. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See toyota.com/entune for details.
14. HD Radio™ and the HD, HD Radio, and “Arc” logos are proprietary trademarks of iBiquity Digital Corp. 15. Additional limitations and details. Valid only in the continental U.S. and Alaska. 16. Based on manufacturers' data. 44. Auto LSD is an electronic, brake-actuated limited-slip differential that automatically activates when VSC is disengaged at low speeds.
17. Vehicle Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 18. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper vehicle maintenance, and tire and road conditions. See Owner’s Manual for additional limitations and details. 20. 2018 EPA-estimated mileage. Actual mileage will vary.
19. Stability Control is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether TSC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 21. Lane Departure Alert is designed to read visible lane markers under certain conditions, and provide audible and visual alerts when lane departure is detected. It is not a collision-avoidance system or a substitute for safe and attentive driving. Effectiveness is dependent on many factors including road, weather and vehicle conditions. 22. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather and vehicle conditions, including glare from oncoming vehicles, rain, snow, fog, etc. can affect the high beams on and off functionality.
23. The Internet Entune® Media Center is an optional infotainment system designed to help the driver maintain trailer control by increasing or reducing trailer braking based on trailer weight. It is not a substitute for safe towing practices. Factors including speed, road conditions and driver input can all affect trailer braking control. See Owner’s Manual for additional limitations and details. 24. HD Radio Technology is designed to help the driver maintain trailer control by increasing or reducing trailer braking based on trailer weight. It is not a substitute for safe towing practices. Factors including speed, road conditions and driver input can all affect trailer braking control.
25. Sway Warning is designed to provide a visual and audible alert if it detects a pattern of vehicle movement that might indicate driver inattention or drowsiness. It is not a collision-avoidance system or a substitute for safe and attentive driving. System effectiveness is dependent on many factors including road, weather and vehicle conditions. See Owner’s Manual for additional limitations and details. 26. Automatic High Beams operate at speeds above 25 mph. Factors such as a dirty windshield, weather and vehicle conditions, including glare from oncoming vehicles, rain, snow, fog, etc. can affect the high beams on and off functionality.
27. Full-Speed Range Dynamic Radar Cruise Control is designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe and attentive driving practices. Factors including speed, road conditions, weather and driver steering input can all affect whether VSC will be effective in preventing a loss of control. See Owner’s Manual for additional limitations and details. 28. Smart Stop Technology® operates only in the vehicle's normal driving mode and, depending on the circumstances, may not be able to stop the vehicle at speeds above 9 mph. To help avoid an accident, the driver should apply the brake pedal to slow the vehicle and stop as necessary.
29. Flex Fuel Vehicles use E85, gasoline or a combination of both. Estimated mileage will vary. Consult your dealer for nearest E85 filling stations or see toyota.com for details. 30. ADAS is not designed to handle all situations. 31. Use common sense when relying on information provided.
