It's about time family time got an upgrade. And that's why the Passat has been redesigned inside and out to handle the fun and life milestones you and your passengers bring to it. With available Driver Assistance features, our innovative integrated touchscreen system for your compatible smartphone, and sophistication in every detail, the Passat is the midsize sedan built for a full life.
Chrome accents. The Passat comes with luster. For starters, you‘ll find chrome accents lining the window trim and door accents, around the bumper, and even on the trunk. Sophisticated sheen comes standard.

Laser seam welding. By using the process of laser seam welding instead of spot welding, losses on a Volkswagen are stronger and more precise. Which translates to a solidly built car.

16" alloy wheels. Style in motion. Whether you‘re stopped or on the go, these wheels look sporty and sophisticated.

STANDARD FEATURES

Family style. Refined. Stylish. Sophisticated. These are qualities the Passat has always enjoyed, but they ring true now more than ever. From the sleek lines on the hood to the aggressive front grills, these new design elements elevate the overall look of the Passat. The available LED headlights not only help illuminate the road, but also our commitment to style, while angular available LED taillights can make any exit brilliant. The Passat proves once and for all that good looks run in the family.

Full LED headlights. Turn heads and illuminate the road ahead with futuristic-looking, long-lasting LED headlights. The Passat offers full LED headlights in low and high beams — 100% LED.

LED taillights. The LED taillights on the Passat have been styled with precise contours that perfectly flow with its design lines. It’s just a shame the cars behind you get to enjoy looking at them more than you do.

Heated power side mirrors with memory and power-folding feature. Customize your side mirror settings so they’ll return to your preferred angle. If the temperature gets below 68°, the side mirrors can be set to automatically heat up to help keep them from fogging. And the side mirrors can fold in with just the turn of a knob.

Corner-illuminating foglights. As lower speeds, these lights can illuminate the darkness you are turning, helping you get a more complete picture of what’s coming ahead. You may not know what’s around every corner, but these lights might help you see it better.

Hands-free Easy Open trunk. Hands full? With your keys in your pockets, just swipe your foot under the rear bumper and the hands-free Easy Open trunk unlocks and opens.

R-Line exterior. The available Passat R-Line steps up the bold and sporty attitude for even the most sophisticated drivers. With a sporty front and rear bumper, 19" wheels, and performance design cues, you may notice an increase in double takes.
Surround yourself.

With the things you love.
Climatronic® dual-zone automatic climate control. Some like it hot. Some like it cold. Thankfully, with dual-zone automatic climate control, you and your passenger can sit in your own comfort zone.

Multi-function trip computer. Get in the know with the multi-function trip computer. Conveniently positioned directly in front of you on the dashboard, it’s a quick way to view important trip information.

Multi-function sporty steering wheel. Grab the multi-function sporty steering wheel and control your tunes and how you communicate. It feels nice in more ways than one, especially since it’s a flat-bottom.

Rear seat pass-through. We thought things through. Literally. The 60/40-split folding rear seats with pass-through let you haul that pair of skis with minimal disruption of passengers in the back.

Heated front and rear seats. Who’s turning up the heat? Most likely you and all of your passengers. You each get three settings to help keep you comfy and cozy when the cold wind blows.

Frameless, auto-dimming rearview mirror. The way to look back and still be fashionably forward. The auto-dimming rearview mirror helps handle that glaring light by dimming what things from behind get too bright. Here’s to good looks and looking out.

Leather seating surfaces. Discover what sitting in the lap of luxury feels like with supple leather seating surfaces that offer premium feel and high-end aesthetics.

Leatherette seats with contrast piping. They don’t just look great. These premium seating surfaces are also comfortable and easy to keep clean. And the contrast accents lining the seats let folks know you appreciate good design.

**AVAILABLE FEATURES**

Spoil your passengers. However you decide to fill your Passat, there are a good amount of features that should pique your interest. Especially features like Climatronic® dual-zone automatic climate control and the available heated front and rear seats that were designed to help make sure you and your passengers get the most comfortable seat in the house. So whether you’re looking for some generous personal space or a place to share some family time, the Passat was designed to help make you and your travelers feel at home, even when you’re on the road.
A connection that feels like part of the family. Your compatible smartphone makes a genius connection. The available Volkswagen Car-Net® connected car suite brings you many ways to connect to your Passat. Take, for instance, VW Car-Net App-Connect, which can display select apps from your compatible smartphone onto your car’s touchscreen. * Once you plug your smartphone into the USB port, App-Connect lets you access those apps on the dash, using Apple CarPlay™, Android Auto™, or MirrorLink®.

Staying in touch has never been this easy.

Composition Color touchscreen sound system. Play it your way: CDs, USB audio, or use Bluetooth® to access your compatible smartphone tunes collection. You can access them through the touchscreen.

Bluetooth technology with audio streaming for compatible devices. Connect your smartphone or other compatible device for talking and streaming. This way you can handle business without missing a beat.

Rearview Camera System. Be in sight and feel right. The camera system alerts you to objects when backing up, and can make parallel parking easier.

Well-appointed meets well-connected.

Standard and available features...

- Volkswagen Car-Net Guide & Inform. With easy access to gas prices, weather, sports scores, and more through SiriusXM Travel Link™ services with a 3-month trial subscription, and a 4-year trial subscription to SiriusXM Traffic, which offers traffic reports, information, you get your info front and center.**

- Volkswagen Car-Net Security & Service. Provides a seamless link from your compatible device — your smartphone, computer, or tablet — to your Volkswagen. VW Car-Net Security & Service can help in an emergency, monitor speed and boundary alerts, check the status of your VW when you’re away, and much more.

- Volkswagen Car-Net App-Connect. VW Car-Net App-Connect allows you to explore with Apple CarPlay, Android Auto, or MirrorLink to use select apps on the touchscreen display of your Volkswagen. From streaming music to mobile maps, it can be accessed on the touchscreen.

- Composition MIB touchscreen sound system. The Panel is now an interactive element. With its advanced touchscreen sound system you can control your media, settings, and the Volkswagen Car-Net App-Connect® feature, which can sync up compatible smartphones and display select apps on the dash. It is connected with one fingerprint. Also it offers a front and rear USB port.

- SiriusXM® Satellite Radio. SiriusXM brings commercial-free music, live sports, news, talk, and the hottest entertainment to your next road trip. **

- HomeLink. We’ve got your remotes covered. Program up to three remotes into your Passat, and open and close your garage, doors, and gate systems. No more searching for the remote control.

- Fender® Premium Audio System. The Fender sound has defined music for generations. Now it helps define your drive. The 9-speaker system includes a subwoofer for detailed, full-range, audiophile-approved sound.

- Rearview Camera System. Be in sight and feel right. The camera system alerts you to objects when backing up, and can make parallel parking easier.

- Bluetooth technology with audio streaming for compatible devices. Connect your smartphone or other compatible device for talking and streaming. This way you can handle business without missing a beat.

- Rearview Camera System. Be in sight and feel right. The camera system alerts you to objects when backing up, and can make parallel parking easier.

- Bluetooth technology with audio streaming for compatible devices. Connect your smartphone or other compatible device for talking and streaming. This way you can handle business without missing a beat.

- Bluetooth technology with audio streaming for compatible devices. Connect your smartphone or other compatible device for talking and streaming. This way you can handle business without missing a beat.

- Rearview Camera System. Be in sight and feel right. The camera system alerts you to objects when backing up, and can make parallel parking easier.
AVAILABLE DRIVER ASSISTANCE FEATURES

Blind Spot Monitor. Intrusive sensors can help detect if another vehicle is coming up from behind or alongside you. So when you’re traveling forward, your VW can alert you if a car is in your blind spot.

Park Distance Control (ParkPilot). This feature helps inform you if you’re too close to a fixed object or another object or vehicle when you’re parking or leaving a spot. When your vehicle is in reverse, a warning tone will sound as you get close to an obstacle in front of you or behind you. The warning tone speeds up as you get closer. *

Adaptive Cruise Control (ACC). Help keep things under control with ACC, which is designed to keep your vehicle at a predetermined speed while keeping your car at a preset distance from the vehicle in front of you.

Lane Departure Warning (Lane Assist). If you happen to move outside of your lane without using your turn signal, this corrective steering feature can automatically adjust your steering in certain conditions to help keep you in the proper lane.

Parking Steering Assistant (Park Assist). Let your VW take the wheel when parking with Parking Steering Assistant (Park Assist). You control the gas and brake pedals, and Park Assist helps steer into parking spots, parallel or perpendicular. It can even help automatically come you out of parking spots. If you want, you can intervene to resume full control.

Rear Traffic Alert. When in reverse and backing out of a parking space, Rear Traffic Alert can warn you of approaching vehicles. The system can assess if a collision might occur, and it can help intervene and respond by applying the brakes if you don’t respond quickly enough.

Forward Collision Warning and Autonomous Emergency Braking (Front Assist). Sensors in the front of your VW help alert you if you are approaching another vehicle too quickly. If you brake enough, the system can boost the braking pressure. And if you don’t brake at all, Front Assist automatically steps in and applies the brakes to help reduce the severity of a potential impact. *

Seven. It’s a lucky number and the number of Driver Assistance features available in the 2016 Volkswagen Passat. * Features like Blind Spot Monitor use sensors around the Passat to help alert you when other vehicles might be in your blind spot. Not to mention the other six available features, which can give you visual or audible warnings to help alert you to unwanted contact.

Seven features. One goal. *The features discussed are not a substitute for attentive driving. See Owner’s Manual for further details and important limitations.
There are available engine options that offer performance the whole cabin can appreciate. And when you have a turbocharged engine under the hood of your Passat, it just so happens to be fuel-efficient. So whether you choose the turbocharged 1.8L TSI® engine or the available 3.6L V6 engine, you’re in for an exciting ride.

Horsepower for the whole family.

*25 city/38 highway mpg (2016 Passat 1.8L TSI, automatic transmission). Your mileage will vary depending on driving conditions, habits and vehicle condition.
†See www.fueleconomy.gov for EPA estimates. Your mileage will vary and depends on several factors, including your driving habits and vehicle condition.

Horsepower for the whole family.

With the available 3.6L V6 engine, performance comes standard along with practicality. It’s fast. It’s fun. And it can get an EPA estimated 20 city mpg! In short, it’s a turbocharged win-win.

The formidable available 3.6L V6 engine leverages a dynamic 280 horsepower (achieved with premium fuel) and 258 lb-ft of torque — offering an exhilarating rush for the driver and the driven. **

With the turbocharged 1.8L TSI engine, performance comes standard along with practicality. It’s fast. It’s fun. And it can get an EPA estimated 38 highway mpg. * In short, it’s a turbocharged win-win.

Turbocharged. The turbo technology in the TSI engine forces cooled air straight into the engine, helping you improve performance, horsepower, and torque.

Direct injection. Direct injection runs fuel right into each cylinder. Precision at its finest.

Paddle shifters. These track-inspired paddle shifters, located near your fingers on the steering wheel, let you quickly shift without taking your hands off the wheel. Take the wheel and take control. **
Precious cargo. Whether you fill your Passat with family or have someone waiting for you at home, we designed every Passat to help instill tranquility with each drive. Features like the Intelligent Crash Response System* and our seven stability-enhancing systems are thoughtfully engineered to help protect—actively or passively.

What matters most to you is what matters most to us.

Safety cage. The safety cage for the Passat has been designed to help protect you during front, rear, or side impacts. In addition, advanced steel B-pillars offer strong reinforcements on top.

Adaptive airbags. Our airbags have been engineered to adapt to crash severity, and special door pressure sensors can help deploy Side Curtain Protection® airbags in the event of a side impact.

Intelligent Crash Response System (ICRS). In the event of a collision that activates the vehicle’s airbags**, the Intelligent Crash Response System can automatically disable the fuel pump, unlock the doors, and turn on the hazard lights***.

Seven stability-enhancing systems. From Electronic Brake-pressure Distribution (EBD), which helps maintain appropriate stopping power during a hard-braking situation, to Electronic Stability Control (ESC), which adjusts engine throttle and applies corrective forces to the wheels that need them most, there are in total seven systems to help you stay in control.

Adaptive airbags. Our airbags have been engineered to adapt to crash severity, and special door pressure sensors can help deploy Side Curtain Protection® airbags in the event of a side impact.

Intelligent Crash Response System (ICRS). In the event of a collision that activates the vehicle’s airbags**, the Intelligent Crash Response System can automatically disable the fuel pump, unlock the doors, and turn on the hazard lights***.

Seven stability-enhancing systems. From Electronic Brake-pressure Distribution (EBD), which helps maintain appropriate stopping power during a hard-braking situation, to Electronic Stability Control (ESC), which adjusts engine throttle and applies corrective forces to the wheels that need them most, there are in total seven systems to help you stay in control.

Tire Pressure Monitoring System (TPMS). The right amount of tire pressure is needed to help maximize your riding comfort and stability. Thanks to this feature, you’ll be alerted if your tire pressure is low and air needs to be added.

Automatic Post-Collision Braking System. Not every collision brings a car to stop. That’s why we made the Automatic Post-Collision Braking System. It can help keep your car from moving after a collision, helping reduce the chance of any additional impacts.

SAFETY FEATURES

*The Intelligent Crash Response System (ICRS) will only activate in a collision where the airbags deploy or safety belt pretensioners are activated. †The feature discussed is designed to help regulate the vehicle during collisions, but it is not a substitute for attentive driving. See Owner’s Manual for further details, and important limitations.

**Drivers are still responsible for proper driver and passenger restraint usage and for safely steering their vehicle in all situations. † †The feature discussed is designed to help regulate the vehicle during collisions, but it is not a substitute for attentive driving. See Owner’s Manual for further details, and important limitations.
